TABLE OF CONTENTS

- 1. Introduction 1
- 2. Sewer Service Charge..... 2
- 3. Fiscal Year 2024/25 Charge Listing 3

1. INTRODUCTION

The City of San Bruno (the “City”) is located approximately 12 miles south of downtown San Francisco in San Mateo County, California. The City encompasses roughly 5.5 square miles and has a population of approximately 43,000. The City was incorporated in 1914 and is a General Law City. The City provides water and sewer service to residential, commercial, institutional, and light industrial accounts in and adjacent to the City. The City’s water and sewer utilities are self-supporting enterprises that rely predominantly on revenues from water and sewer rates to fund the costs of providing service.

The City has provided good financial stewardship via adoption of gradual annual water and sewer rate increases most years for the past 20 years. These increases have put the water and sewer enterprises on a much stronger financial footing, helped keep rates aligned with the costs of providing service and supported a significant increase in funding for rehabilitation and replacement of aging water and sewer system infrastructure.

Currently, water and sewer services are billed together bimonthly. To bolster consistent receipt of revenues and reduce staff time in preparation of customer billings, the City is in the process of moving the collection of sewer service charges for all parcels to the County property tax bills in Fiscal Year 2024/25, starting effectively July 1, 2024. A public hearing will be held on June 11, 2024, during the City Council Meeting to hold a public hearing and review a resolution to incorporate these charges.

2. SEWER SERVICE CHARGE

The City currently charges the following rate structure for annual sewer service which includes two components.

Fixed Monthly Service Charges: These fixed charges are billed per account.

Quantity Charges: Residential customers are billed based on metered water use during four months (January - April). Commercial and other customers are billed based on metered water use during each billing period throughout the year. The City's Quantity Charges are billed in units of one hundred cubic feet (ccf) where one ccf equals approximately 748 gallons.

Proposed Sewer Rates Fiscal Year 2024/25	
Fixed Monthly Service Charge per Account	
Single Family Residential	\$35.74
All Other Customers Charged by Meter Size	
¾ inch	35.74
