April 26, 2023

Honorable Mayor and Members of the City Council City of San Bruno San Bruno, CA 94066

Dear Mayor, Members of the City Council, and Residents of the City of San Bruno, California:

The Annual Comprehensive Financial Report (ACFR) of the City of San Bruno (City) for the fiscal year ended June 30, 2022, is herewith submitted. The City compiles and assists in the preparation of the ACFR covering the financial condition and results of operations for the City. Responsibility for the accuracy of the presented data, and the completeness and fairness of the presentation, including all footnotes and disclosures, rests with the management of the City. To the best of my knowledge and belief, the enclosed financial statements and schedules are accurate in all material respects and are reported in a manner designed to presented fairly the financial position and results of operations of the various funds and component units of the City.

FINANCIAL STATEMENT PRESENTATION

This report has been prepared in accordance with Generally Accepted Accounting Principles (GAAP) in the United States of America for state and local governments as promulgated by the Government Accounting Standards Board (GASB) and includes all disclosures necessary for readers to gain an understanding of the financial activities of the City.

The ability to produce a timely and accurate ACFR depends upon the adequacy of the internal controls of the City. Regarding timeliness of information, this ACFR has been significantly delayed primarily due to unfilled positions at the City. However, the accuracy of the information presented in this ACFR has not been compromised. To provide a reasonable basis for making these representations, management of the City made a commitment to establish a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Management is responsible for establishing and maintaining adequate internal controls in the City. As such, management made a commitment to establish a framework designed to provide reasonable rather than absolute assurance regarding the achievement of objectives in the following categories: (a) efficiency and effectiveness of operations; (b) reliability of financial reporting, and (c) compliance with applicable laws and regulations. Reasonable assurance is defined as a high, but not absolute, level of assurance about whether the representations are free of material misstatement. Internal controls cannot provide absolute level of assurance due to certain inherent limitations, such as errors in judgment, collusion, or management override of controls.

The City's financial statements for the fiscal year ending June 30, 2022 have been audited by Badawi and Associates, a public accounting firm licensed and qualified to perform audits of local governments within the State of California. The audit was conducted in accordance with auditing standards

generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of Federal grantor agencies, including compliance with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards issued by the United States Office of Management and Budget (OMB). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis related to and involving the administration of Federal Awards. These reports are available in the City's separately issued Single Audit Report (issued in April 2023).

This letter of transmittal is designed to complement the Management's Discussion and Analysis (MD&A), and therefore, does not discuss the financial operations and results of the City, which are fully discussed in the MD&A. For that reason, this letter should be read in conjunction with the MD&A in order to gain better understanding of the financial conditions of the City.

This ACFR is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the City's organizational chart, and a list of principal officials. The financial section includes the basic financial statements and the combined financial statements and schedules, the independent auditor's report on these financial statements and schedules, and management's discussion and analysis (MD&A). The statistical section includes selected financial and demographic information, generally presented on a multiyear basis.

The independent auditor's report is presented as the first component of the financial section of the ACFR, followed by the MD&A, which provides a narrative introduction, overview, and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it, The City's MD&A can be found immediately following the Independent Auditor's Report.

CITY PROFILE & SERVICES

With a population currently estimated at 44,015, San Bruno is 209th largest city in California and the fifth largest city in San Mateo County. San Bruno is located on the San Francisco Peninsula, approximately 12 miles south of Downtown San Francisco. The city covers a total land area of 5.5 square miles, located between South San Francisco and Millbrae, and immediately adjacent to the San Francisco International Airport and Golden Gate National Cemetery. San Bruno serves as a major transportation center, with immediate access to major interstate freeways, including 101, 280 and 380; and commuter rail lines, such as Caltrain and Bay Area Rapid Transit (BART). San Bruno is adjacent to San Francisco International Airport, which can be accessed using BART or US 101. However, the other major San Francisco Bay Area airports (Oakland and San Jose) are accessible from San Bruno via BART, for the former, and Caltrain plus VTA services, for the latter. The community has more than 12,000 homes and residences of all types; and vast opportunities for commercial and industrial development. Major commercial facilities include Google, Amazon, Walmart, and Tanforan Crossing.

City Structure

San Bruno is a general law city incorporated in 1914 that operates under the council-manager form of government. Policy-making and legislative authorities are vested in the City Council consisting of the

mayor and four other members. City Council members are elected at large for staggered four-year terms, and the Mayor is elected for a two-year term. The Mayor and City Council serve as the legislative and policy-making body of the City government and are responsible for passing ordinances, adopting the budget, appointing committees, and appointing the City Manager and City Attorney. The City Council adopts financial policies that provide guidance to critical areas such as budget administration and long-term planning, debt and cash management, fund balance/reserve levels, and risk management. The City Manager is responsible for the daily administration of the policies and ordinances of the City Council, providing overall direction to all City Departments, and appointing department directors.

City Services

The City provides a wide range of services to its residents including public safety protection through Police and Fire; the construction and maintenance of streets and infrastructure including water, sewer, and stormwater services; community development through planning, building inspection, code enforcement, and redevelopment of key city areas; parks maintenance and full recreation services; library services; cable television and broadband internet services; and financial management and administration of the overall organization. Other entities within the city-incorporated area provide service to the City's population even though the City may not exercise oversight responsibility or fiscal control over such entities; these entities include school districts and other special districts. The City employs 263 full-time equivalent positions.

Financial Reporting Entity

For financial reporting purposes, the reporting entity of the City consists of: (1) the primary government; (2) one discretely presented component unit: San Bruno Public Financing Authority; and (3) two blended component units: Successor Agency to the San Bruno Redevelopment Agency Trust Fund, and the Recology San Bruno Custodial Fund, for which the City Council is financially accountable for; therefore, these component unit activities are included in the accompanying basic financial statements. The San Bruno Community Foundation is considered a related organization because the City is not financially accountable for its operations. Furthermore, the City has an equity interest via participation in a number of joint ventures, which exist due to joint exercise of power agreements. The complete financial activities have not been included for these entities as the City Council is not financially accountable for them. The funds and accounts for all agencies, boards, and authorities that have been identified as part of the primary government or the component units have been included in the reporting entity. Further information on the reporting entity can be found in Note 1, on page 53 of the Notes to the Basic Financial Statements.

Budgetary Information

Public meetings are conducted to obtain public comments. The City Council annually adopts the budget for the ensuing fiscal year prior to July 1st. Budgeted appropriations for the various governmental funds become effective each July 1. The City Council may amend the budget during the fiscal year. Under Article XIII B of the California Constitution (the GANN Spending Limitation Initiative), the City is restricted as to the amount of annual appropriations from the proceeds of taxes, and if proceeds of taxes exceed allowed appropriations, the excess must either be refunded to the State Controller, returned to the taxpayers through revised tax rates or revised fees schedules, or an excess in one year may be offset against a deficit in the following year.

Budgetary Controls

The City utilizes budgetary controls designed to monitor compliance with expenditure limitations and legal provisions embodied in the annual operating and capital budget approved by the City Council. The annual operating and capital budget serves as the foundation for the City's financial planning and control. All departments and divisions are required to submit requests for appropriations to the City Manager. These requests are used as the starting point for developing a proposed operating and capital budget. The City Manager and Finance Director then present the proposed budget for the City Council's review. The City Council is required to hold a public hearing on the proposed budget and adopt a final budget no later than June 30, the last day of each fiscal year. Activities of all funds, except fiduciary funds, are included in the Annual Operating and Capital Budget. The City also adopts a five-year capital improvement program, appropriating the current year's expenditures in the annual budget. The level of control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level. The City Manager may authorize transfers of appropriations in the adopted budget within funds; however, any revisions which alter the total expenditures of any fund must be approved by the City Council. Quarterly financial reports are presented to the City Council to assess and evaluate budget variances during the year. Budget amendments requiring a change in appropriations require approval by the City Council and are submitted as needed during the course of the fiscal year. Budgets for the General, Major Special Revenue, and Capital Project Funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP). The annual budget is assigned specific accounting attributes and is uploaded into the accounting system, thereby establishing the budget authority. The budget authority established in the accounting system of record is then reconciled to the levels of funding authorized by the Adopted Budget.

In addition, the City used encumbrance accounting as a means of strengthening budgetary controls and financial reporting. Under this method of accounting, purchase orders, contracts, and other commitments for the expenditure of funds are recorded in the accounting system for the City in order to reserve the portion of the related appropriation that will be needed for the expenditure to ensure that expenditures are within the budgeted amounts. Generally, encumbered amounts lapse at year-end in the General Fund but not in the Capital Project Funds or the Special Revenue Funds.

Fund Balance Reserves

Reserve Policies: In complying with the provisions of GASB Statement 54 (fund balance reporting and fund type definitions), the City assigns a portion of its General Fund balance to reserve designations that include Contingency, Emergency Disaster and Capital Improvement/One-Time Initiative Reserve. The City's Reserves Policy designates the General Fund reserves for economic uncertainty, capital improvements, as well as the reserve for the internal service funds, which includes Central Garage, Buildings and Facilities, and Technology. Per policy, the General Fund reserves target should be no less than three months of city operating costs with an initial deposit of 20% of General Fund expenditures or at least 25% of budgeted General Fund expenditures. While further delineated in the accompanying MD&A, at the end of fiscal year 2022, the unassigned fund balance of the General Fund was \$5.2 million, while the total fund balance was \$47.0 million (includes non-cash outstanding receivables of \$10.6 million and \$.8 million in Measure G Sales Tax cash balance). The unassigned fund balance represents 10.6% of total General Fund expenditures of \$49.6 million (including Transfers Out).

General Fund Contingency Fund – The General Fund Contingency Fund has a target fund balance of \$1.5 million. This fund can be utilized through resolution of the City Council for any appropriation deemed appropriate.

General Fund Reserve – The General Reserve Fund has a target fund balance of 25% of the budgeted General Fund expenditures. The General Fund Reserve Fund balance shall not fall below 15% of General Fund operating expenditures except in a declaration of emergency.

Emergency Disaster Reserve – An Emergency Disaster Reserve has a target fund balance of \$3 million. This fund is intended to be utilized in the event of a declaration of emergency that requires the expenditure of funds outside of the adopted budget.

Capital Improvement Reserve – A Capital Improvement Reserve Fund has an initial fund balance of \$5 million. While this fund has an initial goal of \$5 million, funds shall continue to be added to this fund until it has reached a fund balance of \$8 million,

Central Garage Reserve – The Central Garage Reserve has a target amount of 25% of budgeted department expenditures, not to drop below 15% except in a declaration of emergency.

Building and Facilities Reserve – The Buildings and Facilities Reserve has a target amount of 25% of budgeted department expenditures, not to drop below 15% except in a declaration of emergency.

Technology Reserve – The Technology Reserve has a target amount of 25% of budgeted department expenditures, not to drop below 15% except in a declaration of emergency.

City Accounting and Financial System

The accounting system of the City is organized and maintained on a fund basis. A fund is a separate, distinct accounting entity that has its own assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance/net position, revenues, and expenditures/expenses. The City uses GAAP when determining the types of funds to establish and sound financial management practices when determining the number of funds within each fund type.

Measurement Focus and Basis of Accounting

The financial statements for the City are prepared in accordance with GAAP. Accordingly, the measurement focus and basis of accounting applied in the preparation of the government-wide financial statements and fund financial statements are as follows:

- The government-wide financial statements focus on all of the economic resources of the City and
 are prepared using the full accrual basis of accounting he governmental fund financial statements
 focus primarily on the sources, uses, and balances of current financial resources and are prepared
 using the modified accrual basis of accounting.
- Proprietary funds, pension trust funds, Other Employee Benefits Trust Funds, and other fiduciary funds are accounted for in the same manner as business enterprises, which use the full accrual basis of accounting.

ECONOMIC CONDITION AND OUTLOOK

The information presented in the financial statements is best understood when it is considered within the broader perspective of the specific environment in the City of San Bruno.

Local Economy

The City's geographic location is in close proximity to Silicon Valley which significantly elevates its economic position and makes San Bruno a highly desirable location for businesses and residents. The City is located at the intersection of three major interstate freeways (Highway 101, Interstate 380, and Interstate 280), making the City easily accessible from San Francisco to the north and from Silicon Valley to the south. The City also has Bay Area Rapid Transit (BART) and Caltrain stations located within its limits, making it readily accessible via public transportation. In addition, the San Francisco International Airport is immediately adjacent to the City making it a popular destination for business travelers and tourists.

The City has made significant improvements towards a healthy recovery from the effects of COVID pandemic during the 2022 fiscal year. With the federal assistance (\$10.2 million) from the American Rescue Plan Act (ARPA), the City has worked diligently with local businesses to help in keeping their doors open for business, as well as the funding programs to stimulate the local economy and restore some city services. Nine previously frozen positions were restored, and nine new positions were added to the City team. ARPA fund is expected to exhaust by December 31, 2024. Despite the pandemic, San Bruno has seen a year over year increase in its assessed valuation in 2022.

Long-term Perspective

The City has been prudent with its financial resources and has contained costs by implementing both structural and one-time budget savings. The City worked diligently to reduce the level of reserves used during FY 2022 and will continue to do so moving forward while the effects from the COVID-19 pandemic continue. While the City has consistently worked to balance its budget, the City must continue this effort and make additional adjustments to its general fund expenditures to address and resolve an ongoing structural deficit largely driven by rising employee benefit costs.

The City employs long-term planning as the framework for its fiscal decisions and recently updated its forecasting model to provide a comprehensive and agile tool projecting the City's finances for a five-year period for the General Fund as well as other key operating funds. While the General Fund structural budget gap has been greatly reduced as compared to years past, the City continues its efforts to eliminate structural gaps and achieve a more

stable fiscal outlook on a long-term basis.

While San Bruno's underlying economy is viewed as stable and positive in the long-term, today's economic challenges, notably to the City's General Fund, must be dealt with immediately to ensure long-term economic stability. The other enormous challenge is continuing to provide an ever-increasing high level of service to the community with limited resources and rising employee benefit costs – while ensuring long-term economic stability.

Long Range Financial Planning: The City continues to refine its long-range financial planning tools as part of managing the annual budget for the General Fund, other key revenue funds such as internal service and enterprise funds, and the Capital Improvement Program. Utilizing a five-year approach has helped the City identify and plan accordingly to manage potential future structural deficits.

Long-term Debt Ratings: The City maintains excellent ratings on its debt issuances. In recent fiscal years, the City has received high ratings, including a AAA rating from Standard & Poor for the 2013 Taxable Pension Obligation Bonds and a AA+ rating for the 2017 Water Revenue Bonds, 2017 Wastewater Revenue Bonds, 2017 Water Revenue Bonds and 2019 Lease Revenue Bonds. A critical component of the rating

agency review is the City's financial management status, i.e., appropriate reserve levels, plans to reduce liabilities, fiscal policies, etc. If the City fails to maintain these areas of fiscal control, the City could see a reduction in future ratings.

Debt Administration: The City has adopted a comprehensive debt management policy that guides the issuance and management of City debt. The policy includes establishing the legal debt limits (per State law this equates to 15% of assessed value of all real and personal property of the city); identifying the types of debt that can be issued and purposes for which debt proceeds can be used; establishing financial limits affecting debt issuance; and identifying guidelines regarding the structuring of debt. As of June 30, 2022, the City had total debt outstanding of \$51.3 million, which complies with, and is significantly under, the current policy limits. This is further detailed in the accompanying Management Discussion and Analysis (MD&A) section of this document.

Long-term Planning: One of the financial policies noted above outlines the City's goals related to long-range financial forecasting. The City annually prepares and adopts a five-year financial plan for the General Fund as part of the operating budget. In addition, the City maintains long-range forecasting models for other key operating funds, including a capital improvement program plan. Each fiscal year, the City develops a five-year Capital Improvement Program (CIP) plan that details specific budgeted capital projects. Each of the projects is consistent with the overall goals and principles of the City Council and includes planned capital projects in the areas of parks, stormwater drainage, water and wastewater infrastructure, maintenance of streets, and City's facilities improvements. All these investments in the various areas reflect the City Council's commitment to maintain or improve the City and provide the citizens with the highest possible service and level of infrastructure possible given constrained funding.

Cash Management: The City's investment policy is conservative and is supported by the annual adoption by the City Council of a Statement of Investment Policy that defines the objectives and priorities of the investment program, which stresses the safety and liquidity of funds as the highest priority. The final priority is to achieve the maximum yield possible within the constraints and limits stated in the policy. As of June 30, 2022, the City manages and balances the City's pooled cash portfolio of \$149.8 million market value, with the overall yield within policy guidelines.

MAJOR INITIATIVES & ACCOMPLISHMENTS

The San Bruno City Council established the following seven critical priorities to move the community forward:

- (1) Implementation of the Transit Corridor Vision to Revitalize Downtown and Commercial Corridor
- (2) Assure Rehabilitation & Replacement of Critical Community Facilities and Infrastructure
- (3) Grow City Revenues to Assure On-Going Fiscal Stability and Economic Vitality
- (4) Continue to Strengthen Community Connections and Engagement
- (5) Protect and Improve Community Aesthetics and Safety
- (6) Continue Proactive Planning for the Future of San Bruno
- (7) Organizational Health and Employee Success.

The management team has aligned its service delivery objectives and program priorities through the budget planning process, and with City Council direction and the strategic Priorities. Some of the accomplishments and ongoing efforts in these Priority areas are discussed below.

Capital Improvement Program

One way through which the City implements the Strategic Priorities is through the Capital Improvement Program (CIP). The capital budget for FY2022 totaled approximately \$86.5 million, with \$238.2 million tentatively programmed for the entire five-year period from FY2022 through FY2026. The City's CIP Projects predominantly support the Infrastructure Improvement Priority. Despite the global economic challenges, the City made major steps forward in all areas of the City's operation that directly address the City Council's established long-term objectives. Some of the accomplishments the City achieved in FY 2021-22 include:

- Constructing a New Recreation and Aquatic Center: The new facilities will replace Veterans Memorial Recreation Center and the adjacent community swimming pool that have served generations of San Bruno residents for over six decades. The San Bruno Community Foundation has pledged \$50 million in restitution funding to turn the community's vision into reality over the next three years. The City has selected a contractor to construct the building and the project is expected to complete the project in late fall 2023.
- Implementation of the Transit Corridors Plan: The modern transit-oriented residential and commercial project will transform of the community's commercial corridor and downtown consistent with the City's adopted Transit Corridor Plan.
- Water and Sewer Infrastructure Maintenance: The City completed full replacement of the
 underground water and sewer mainlines throughout the City. These projects were delivered on time
 and within budget, and were completed with minimal disruption to business activity in the
 downtown and other areas throughout the City. This will assure reliable service to an area
 previously impacted by service failures due to aged, damaged, and deteriorating underground
 pipelines.
- Bayhill Specific Plan: The Bayhill Office Park houses Walmart.com and YouTube, two of the City's largest employers, and includes office space expansion, creation of a private multi-modal transportation hub and a housing overlay.
- Fiber-to-the-Home in Large Multi-unit Developments: Installation of a new FTTH network at the Shelter Creek, Peninsula Place and Crystal Springs Terrance apartment multi-family complexes showed 68% subscriber penetration, with strong, reliable network and data speeds of up to 1 gigabyte available to over 2,400 residences in San Bruno. During the coming year the City Council will need to determine whether to continue this initiative or to pursue an alternative strategy for the future of San Bruno CityNet Services.
- YouTube Development: The plan will build 440,000 square feet of new office space on an existing surface parking lots adjacent to existing buildings at 900 and 1000 Cherry Avenue.
- Sale of the Crossing Property: Once the dealership is built and fully operational, it is estimated to generate \$1 million annually in sales tax, plus property tax on new assessed value.
- **Reimaging Tanforan**: In early 2022, Alexandria Real Estate purchased the 44-acre Tanforan shopping center cite. A master plan of a modern, mixed-use development plan is under making to include offices, hotels, retail, entertainment and a minimum of 1,000 housing units.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for the ACFR for the fiscal year ended June 30, 2021. The Certificate of Achievement is a national award recognizing conformance with the highest standards for preparation of state and local government financial reports. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. The report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

Acknowledgments

The issuance of this report would not have been possible without the leadership and commitment to the high standards embodied in this report by the City Council, the Mayor, and the City Manager. In addition, the efforts of the entire Finance Department staff, as well as the audit firm of Badawi & Associates is specifically recognized for the long hours that were required to complete this document. Finally, the staff of the entire Finance Department also wishes to express its appreciation to each City department for their cooperation and support in conducting the fiscal operations of the City.

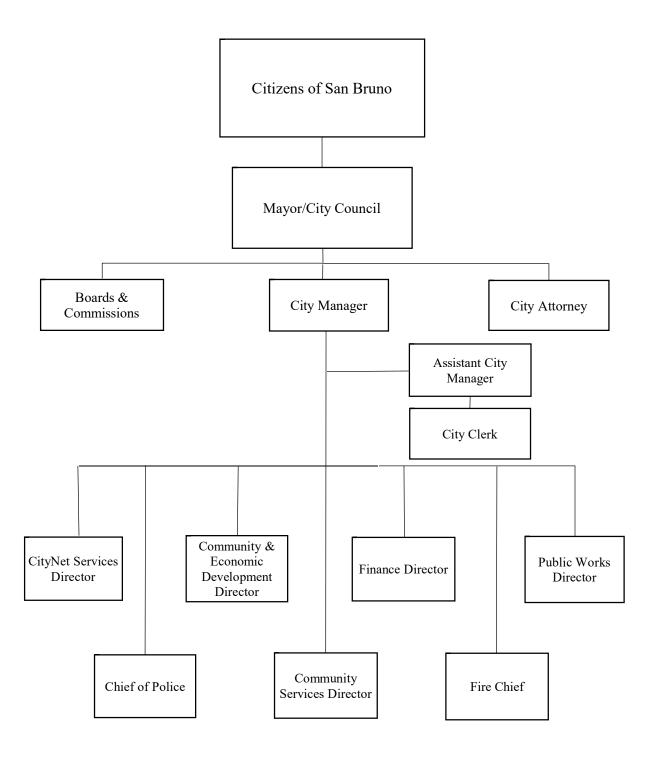

Respectfully submitted,

Buryel

Executive Director/CEO

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the City Council of the City of San Bruno San Bruno, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of San Bruno (City), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter - CityNet Fund Going Concern

The accompanying financial statements have been prepared assuming that the CityNet Fund (CityNet) will continue as a going concern. As discussed in Note 12 to the financial statements, CityNet's recurring losses from operations, deficit net position, and continual borrowing from the General Fund to pay its liabilities raise substantial doubt about its ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding these matters are also described in Note 12. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinions are not modified with respect to this matter.

To the Honorable Mayor and Members of the City Council of the City of San Bruno San Bruno, California Page 2

Emphasis of Matter - Stormwater Fund Going Concern

The accompanying financial statements have been prepared assuming that the Stormwater Fund will continue as a going concern. As discussed in Note 12 to the financial statements, the Stormwater Fund has had recurring losses from operations, and transfers in from the General Fund to maintain a positive unrestricted net position. This raises substantial doubt about its ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding these matters are also described in Note 12. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

The City's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the City's internal control. Accordingly, no such opinion is expressed.

To the Honorable Mayor and Members of the City Council of the City of San Bruno San Bruno, California Page 3

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules for the General Fund, and the required pension schedules on pages 5-21 and 101-109 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining General Fund statements, combining and individual nonmajor fund statements, and the budgetary comparison schedules for the Parks and Facilities Capital Improvement Fund and nonmajor governmental funds are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining General Fund statements, combining and individual nonmajor fund statements, and the budgetary comparison schedules for the Parks and Facilities Capital Improvement Fund and nonmajor governmental funds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining General Fund statements,

To the Honorable Mayor and Members of the City Council of the City of San Bruno San Bruno, California Page 4

combining and individual nonmajor fund statements, and the budgetary comparison schedules for the Parks and Facilities Capital Improvement Fund and nonmajor governmental funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the Introductory and Statistical Sections included in the annual comprehensive financial report but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Report on Summarized Comparative Information

The prior year summarized comparative information has been derived from the City's June 30, 2021 financial statements. The prior year financial statements of the City as of and for the year ended June 30, 2021, were audited by other auditors whose report dated December 21, 2021, expressed an unmodified opinion on those statements.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 26, 2023 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Badawi & Associates, CPAs Berkeley, California

April 26, 2023

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis (MD&A) provides an overview of the City of San Bruno's activities for the fiscal year ended June 30, 2022. The intent of this discussion and analysis is to present a full picture of the City's financial performance. Readers should review the discussion and analysis in conjunction with the basic financial statements, as well as the notes to the financial statements to enhance their overall understanding.

Financial Highlights for Fiscal Year 2021-22

Entity-wide:

- The City's assets and deferred outflow of resources exceeded its liabilities and deferred inflow of resources at June 30, 2022 by \$194.4 million (net position). The City's net position increased \$32.5 million, or 20.1%, from the previous fiscal year.
- The City's governmental activities program and general revenues (including transfers) of \$76.5 million exceeded expenses of \$57.3 million by \$19.2 million, increasing net position to \$63.9 million.
- The City's business-type activities program revenues and general revenues (including transfers) from the four enterprise operations of \$45.8 million were greater than expenses of \$35.7 million by \$10.1 million, increasing net position to \$130.4 million.

Fund level:

- At the close of the fiscal year, the City's governmental funds reported combined fund balances of \$63.4 million, an increase of \$5.2 million or 9.1% compared to the prior year. Of this amount, \$15.3 million is non-spendable, \$53.4 million is restricted, \$26.0 million is assigned, and \$(31.4) million is unassigned.
- Revenues for governmental funds exceeded expenditures by \$5.3 million. Tax revenue grew \$8.7 million, or 24.5 %, from the prior year. Expenditures for governmental funds increased \$17.9 million, or 32.8%, from the prior year mainly due to increased capital outlay spending.

Detailed analysis can be found under the Government-wide Financial Analysis Section and Financial Analysis of the City's Funds Section

Overview of Financial Statements

This discussion and analysis serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements are designed to provide readers a broad overview of the City finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as an indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for

some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City consist of general government, public safety, public works, streets, parks and recreation, library and community and economic development. The business-type activities of the City include water, stormwater, wastewater, and cable television.

The government-wide financial statements can be found on pages 27-29 of this report.

Fund financial statements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains nineteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund and Parks and Facilities Capital Improvement Fund, which are considered to be a major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds are provided in the form of combined statements in the Supplementary Information section of this report.

The City adopts an annual appropriated budget for its general fund and most governmental funds. A budgetary comparison statement has been provided for all major and non-major funds (with adopted budgets) in governmental activities to demonstrate compliance with this budget.

The governmental fund financial statements can be found on page 34 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for water, stormwater, wastewater, and CityNet services. CityNet is a municipally owned and operated enterprise for cable television, internet, and other services.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its central garage, self-insurance, technology

development, and facilities maintenance activities. Because these services predominantly benefit governmental rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, but in more detail. The proprietary fund financial statements provide separate information for all of the City's proprietary funds as they are all considered to be major funds by the City. Conversely, the internal service fund is combined into a single, aggregated presentation in the proprietary financial statements. More detailed information for the internal service funds is provided in the form of combined statements elsewhere in the report.

The proprietary fund financial statements can be found on page 40 of this report.

Fiduciary funds. Trust and custodial funds are fiduciary funds that account for assets held by the City in a purely custodial capacity. The reporting entity includes the Recology San Bruno Custodial Fund to account for funds billed, collected, and remitted to the company for waste management services within the City. In addition to the custodial fund, the Successor Agency to the San Bruno Redevelopment Agency Trust Fund was created as a result of the California Supreme Court decision on December 29, 2011 upholding ABx1 26, which eliminated all redevelopment agencies in California and created a process for winding down their operations. Both funds report a "balance sheet" referred to as a statement of fiduciary net position.

The fiduciary fund financial statements can be found on page 48 of this report.

Notes to the Basic Financial Statements. The notes provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found starting on page 53 of this report.

Required and Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 99 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service and fiduciary funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on page 114 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the City's financial position. Assets and deferred outflows exceeded liabilities and deferred inflows by \$194.4 million at the close of fiscal year 2021-22.

Total net position	\$	63,939,492	\$ 41,493,479	\$ 130,410,600	\$ 120,344,318	\$ 194,350,092	\$ 161,837,797	

By far the largest portion of the City's net position reflects its investment in capital assets (e.g. land, infrastructure, buildings, machinery, equipment, and vehicles) less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets (\$139.0 million) to provide services to its citizens. Consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets cannot be used to liquidate these liabilities.

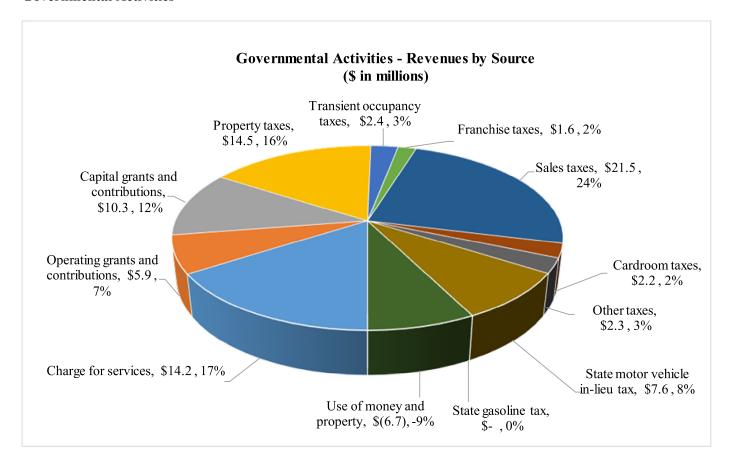

An additional portion of the City's net position, \$55.3 million, represents resources that are subject to external restrictions on how the funds may be used, such as constructing specified capital projects, debt service, or other community programs. The remaining balance in unrestricted net position amounts to \$1 thousand. This amount may be used at the City's discretion to meet ongoing obligations to citizens and creditors.

The City's overall net position increased by \$32.5 million, or 20.1%, from the prior fiscal year. Key elements of these changes are as follows:

Governmental Activities

Governmental activities increased the City's net position by \$19.2 million, with a total net position of \$63.9 million at the end of the fiscal year. Overall, revenues increased by \$12.3 million to \$75.9 million over the prior year. Robust sales tax mitigated decreases in other tax categories such as franchise tax revenues. Sales tax increased \$3.8 million, or 21.2%, which included a significant additional revenues from the passage of Measure G. Measure G was approved by the voters on November 3, 2019 and became effective on April 1, 2020. Sales tax revenue also increased due to improved business activities as compared to the start of the Covid-19 pandemic. In addition, the City entered into a Revenue Participation Agreement with a major taxpayer in October 2020, resulting in a full year of sales tax revenue associated with the agreement being reported in the current fiscal year. The City's second largest tax category, property taxes, increased by \$1.9 million, or 15.17%. The increase of property tax aligns with the increase in the San Mateo County's property assessments. State revenues from motor vehicle in-lieu tax increased by \$4.5 million, or 140.4%. The increase in state motor vehicle in-lieu tax was primarily due to the County receiving reimbursement for the in-lieu vehicle license fee shortfall for fiscal years 2020-21 and 2021-22. Transient occupancy taxes increased \$1.2 million, or 93.1%, as leisure and business travel continued to expand as a result of the decrease in restrictions due to the ongoing COVID-19 pandemic. Operating grants and contributions increased \$2.9 million, or 94.6%, primarily due to receipt of federal funds related to COVID-19 and funding from the San Bruno Community Foundation for the City's new Recreation and Aquatic Center project. Expenses decreased by \$0.9 million, or 1.6%, as the City cut expenditures in general government related to the pandemic.

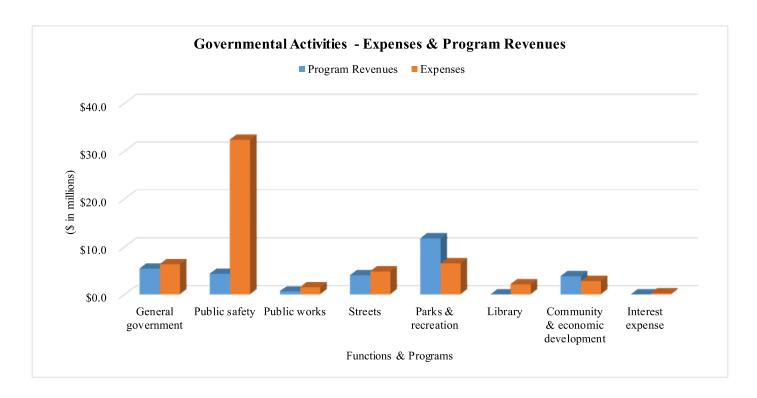

The cost of all governmental activities in 2021-22 was \$57.3 million. As shown on the statement of activities, the amount that taxpayers paid for these activities with general revenues was \$30.4 million due to some of the costs being paid by those specifically benefiting from the programs (\$14.2 million), and by other governments and organizations subsidizing programs with grants and contributions for operations and capital improvement (\$16.2 million).

The City's programs included general government, public safety, public works, streets, parks and recreation, library, and community and economic development. Each program's net cost (total cost less revenues generated by the activities) is presented below. The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

Operating resources (program revenues) and operating expenses are depicted graphically as follows:

Business-type Activities

The City's business-type activities include water, stormwater, wastewater, and CityNet. While water and wastewater are true enterprise funds that pay for their services through user fees, both stormwater and CityNet require funding from the General Fund, as user fees do not cover all operating or capital costs. The results for the current fiscal year were positive in that overall net position increased to reach an ending balance of \$130.4 million. The total increase in net position for business-type activities was \$10.1 million. The water and wastewater Funds directly contributed to the growth. Charges for services of \$16.8 million and \$19.4 million covered expenses of \$11.6 million and \$13.0 million, respectively. Stormwater charges for services of \$8.6 million continued to be insufficient to support expenses of \$1.6 million. CityNet charges for services of \$8.6 million also continued to be insufficient to support expenses of \$9.4 million. Total resources available during the year to finance business-type activities were \$47.6 million consisting of program revenues, investment income, and transfers in. Total business-type activities expenses during the year were \$37.6 million including operating expenses, debt service expenses, and transfers out.

Operating revenues and expenses are depicted graphically as follows:

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2022

Each program's net cost (total cost less revenues generated by the activities) is presented below. The net cost shows the financial burden placed on City's taxpayers by each of these functions.

	Operating	g Revenues	Operating	g Expenses	Net (Expense) and Change in Net Position				
	2022	2021	2022	2021	2022	2021			
Business-type activities:									
Water	\$ 16,774,287	\$ 17,777,900	\$ 11,300,655	\$ 12,271,120	\$ 5,473,632	\$ 5,506,780			
Stormwater	1,054,326	655,608	1,644,433	1,371,415	(590,107)	(715,807)			
Wastewater	19,378,136	18,470,837	11,949,704	11,679,599	7,428,432	6,791,238

Total business-type activities	\$ 45,772,880	\$ 45,921,393	\$ 34,320,918	\$ 35,243,807	\$ 11,451,962	\$ 10,677,586			

Financial Analysis of the City's Funds

Governmental Funds

The City uses fund accounting, which focuses on current financial resources affecting near-term liquidity. It is also a management tool for segregating certain resources for specific activities or objectives in accordance with special regulations, restrictions, or limitations.

As of June 30, 2022 governmental funds reported combined fund balances of \$63.4 million, an increase of \$5.3 million, or 9%, over the prior year. Of this amount, \$15.3 million is non-spendable as the funds were advanced to CityNet services for the Shelter Creek Fiber to the Home project in the amount of \$0.1 million, and for the negative cash balance in the fund in the amount of \$15.2 million. The City is developing a plan to reduce the net operating loss and repay the General Fund. The remainder of the fund balance is either restricted, assigned, or unassigned to indicate that it is (1) restricted for particular purposes, \$53.4 million; or (2) assigned for particular purposes, \$26.0 million; or (3) unassigned and available at the City's discretion, \$(31.4) million.

Analysis of Major Funds

The General Fund is the main operating fund of the City. For financial statement presentation purposes, the General Fund includes the operating fund, reserve funds, Measure G fund, American Rescue Plan Act fund, and Developer Project Contributions fund. Revenues totaled \$63.4 million, which is an increase of \$7.2 million, or 12.8%, from the prior year. This is primarily due to growth from motor vehicle in-lieu tax sales tax, property tax, and intergovernmental revenue. The City received federal American Rescue Plan Act funding of \$9.9 million in fiscal year 2021-22 to support the response to and recovery from the COVID-19 public health emergency. Expenditures totaled \$53.4 million, which increased by \$5.3 million, or 10.9%, from the prior year. The increase is primarily attributed to additional funding allocated to public safety and the acquisition of vehicular equipment. At the end of the fiscal year, total fund balance increased by \$11.2 million to \$46.6 million.

The Parks and Facilities Capital Improvement Capital Projects Fund, which provides for the improvement of the City's parks and facilities, increased by \$9.5 million. The primary reason for the increase in revenues was due to the receipt of community benefit funds from San Bruno Community Foundation in the amount of \$10.2 million. Expenditures increased in the amount of \$13.8 million. The entire portion of the increased expenditures was related to capital outlay activities. Capital outlay expenditures were primarily associated with the design and construction of the City's new Recreation and Aquatics Center. The net change in fund balance for fiscal year was a decrease of \$3.0 million, netting to an ending fund balance of \$(.2 million).

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2022

Proprietary Funds

The City's proprietary funds provides the same type of information found in the business-type activities portion of the government-wide financial statements, but in more detail.

Water Fund net position increased by \$4.9 million to \$70.2 million as a result of planned rate increases approved by City Council in 2017, which will be used to implement a number of critical infrastructure improvement projects in future years. A five-year rate plan was established, and provides for annual 5% rate increases through June 30, 2022. To lessen the financial burden on residents in the era of COVID-19, the City Council decided not to increase the water rate in FY 2021-22 or FY 2022-23.

Wastewater Fund net position increased by \$5.4 million to \$71.8 million as a result of planned rate increases approved by City Council in 2017, which will be used to implement a number of critical infrastructure improvement projects in future years. A five-year rate plan was established and provides for annual 5% rate increases through June 30, 2022. To lessen the financial burden on residents in the era of COVID-19, the City Council decided not to increase the wastewater rate in FY 2021-22 or FY 2022-23.

Stormwater Fund net position increased by \$0.4 million to \$5.4 million primarily due to a transfer in from the American Rescue Plan Act fund. The long-range financial forecast, without any additional dedicated revenue to support the enterprise, is projected to yield a negative fund balance beginning in FY 2022-23 with a negative fund balance each year thereafter. The remaining stormwater system capital improvement projects are projected to be funded through General Fund reserves due to the lack of dedicated stormwater fees. The City held a mail ballot property-owner election to increase Storm Drainage and Flood Protection Fee on June 15, 2021. The initiative was rejected by the voters, and the City began exploring alternative options in 2021-22 to address needed stormwater system improvements. A path to alternative funding options has not been identified as of yet, and the City continues to explore options in 2022-23.

CityNet Fund net position decreased by \$0.8 million to \$(18.7) million. This decline is primarily due to operating expenses exceeding operating revenues. Depreciation expense of \$0.3 million and the impact of reflecting the GASB 68 pension expense in the fund of \$0.1 million also contributed to the net position decrease. With the adoption and implementation of the new, internet focused business plan in 2019, accompanied by a new rate structure and continuously implemented vendor cost controls, progress has been made annually in reducing the net operating loss since 2018. As long as the enterprise remains in a financial deficit position, the impact falls on the City's General Fund to backfill the CityNet Fund shortfall.

General Fund Budgetary Highlights

The budget comparison information presented on page 101, as Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget to Actual shows the initial adopted and final budgets for the General Fund. In this financial statement, the General Fund is comprised of the General Operating fund, reserve funds, Measure G fund, American Rescue Plan Act fund, and Developer Project Contributions fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2022

Original Budget Compared to Final Budget

The most significant differences between original and final revenue estimates were as follows:

Revenues	Orig Budget	Final Budget	Variance	Percent
				Change
Intergovernmental	8,834,874	9,724,874	890,000	10.1%

Intergovernmental revenue estimates increased by \$0.8 million, or 10.1%. The increase was the adjustment for the County receiving the FY 2021-22 VLF disbursement from the State. The City had expected to receive \$1.16 million of the disbursement.

The most significant differences between original and final expenditure budgets were as follows:

Expenditures	Orig Budget	Final Budget	Variance	Percent Change
Public works	1,539,201	1,647,978	108,777	7.1%
Community and economic development	3,188,841	3,653,183	464,342	14.6%
Capital outlay	924,000	1,282,553	358,553	38.8%

Community and Economic Development appropriations had combined increases of \$0.4 million, or 14.6%. The rise can be attributed to the City's contracting with consultants to support permit technician services, and encumbrances carried over from the prior fiscal year. Capital outlay expenses increased by \$0.35 million, primarily for purchasing vehicles and providing related equipment outfitting.

Final Budget Compared to Actual Results

The most significant differences between estimated and actual revenues were as follows:

Revenues	Final Budget	Actual Revenues	Variance	Percent Change
Taxes	32,752,340	42,335,688	9,583,348	29.3%
Licenses and permits	6,822,727	5,609,093	(1,213,634)	-17.8%
Intergovernmental	9,724,874	11,054,305	1,329,431	13.7%
Charges for services	2,466,733	3,915,518	1,448,785	58.7%
Fines and forfeitures	1,048,000	612,247	(435,753)	-41.6%
Other revenues	5,923,475	6,579,462	655,987	11.1%

Tax revenues realized increases in sales tax, property tax, and transient occupancy tax. The City entered into a Revenue Participation Agreement with a major taxpayer in October 2020 and began recording the full year of sales tax revenue associated with the agreement. Intergovernmental revenue received was \$1.3 million, which was 13.7% over budget, which was primarily due to the City receiving larger than expected VLF disbursement.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2022

The charges for services category are made up of various program revenues primarily from the Police Department and Recreation Services Division. By fiscal year end, charges for services came in to \$1.4 million, or 58.7%, higher than previously estimated. This increase can be attributed to the gradual rise in community activities during the post COVID-19 pandemic period. Fines and forfeitures were \$0.4 million, or 41.6%, below budget primarily due to a reduction in police and parking fine collections.

The most significant differences between the final budget and actual expenditures were as follows:

Expenditures	Final Budget	Actual _Expenditures	Variance	Percent Change
Streets	\$2,179,621	\$1,755,168	\$424,453	19.5%
Parks and recreation	\$5,535,476	\$4,937,774	597,702	10.8%
Library	\$2,195,025	\$2,071,002	124,023	5.7%
Community and economic development	3,653,183	2,787,248	865,935	23.7%
Capital outlay	1,282,553	2,008,149	(725,596)	-56.6%

The challenges that arose from the start of the COVID-19 pandemic continued into FY 2021-22. Consistent with prior years' practice and the City Council's on-going budget policy, the budget reflects efforts across all departments and operating programs to control and contain costs at the lowest responsible levels to allow for uninterrupted service delivery. As a result, total expenditures were \$53.4 million, which was \$1.3 million, or 2.0% under budget. Streets Division expenditures were \$0.4 million, or 19.5%, under budget due to salary savings from vacant positions, savings in streetlight and traffic signal supplies, other operating supplies, and contractual services. Community and Economic Development Department expenditures were \$0.8 million, or 23.7%, under budget due to salary savings from vacant positions and unspent professional services funds which will be carried over to next fiscal year.

Cash Management

The City employs a pooled cash system (Reference Note 2 in the notes to the basic financial statements). To maintain flexibility in cash management under the pooled cash concept, the City invests the cash of all funds with maturities planned to coincide with cash needs. Idle cash is invested in eligible securities as defined by the California Government Code, and further authorized and guided by the City's Investment Policy. The goals of the City's Investment Policy are safety, liquidity, and yield, in that order of priority.

Capital Assets

The capital assets of the City are those assets used in the performance of the City's functions including infrastructure assets. As of June 30, 2022, net capital assets of the governmental activities totaled \$82.5 million. Depreciation on capital assets is recognized in the government-wide financial statements. During the 2021-22 fiscal year, net capital assets for governmental activities increased by \$12.9 million due to increase in capital purchases. For business-type activities, capital assets decreased by \$2.5 million to \$102.6 million due to aging infrastructure in which the depreciation rate on existing assets exceeds the rate of capital purchases incurred in 2021-22 fiscal year. Detailed information about capital assets can be found in Note 4 to the financial statements.

Total Long-Term Debt Obligations	\$ 55,480,600	\$ 57,732,891			

Additional information about long-term debt can be found in Note 5 to the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2022

Economic Factors and Next Year's Budgets and Rates

The City Council and management considered the following economic factors in preparation of the fiscal year 2022-23 budget:

General Fund revenues

- Total General Fund revenues of \$50.9 million projected for FY 2022-23 are flat compared to the FY2021-22 Amended Budget amounts.
- Property Taxes Compared to other cities throughout California, San Bruno receives a relatively low amount of the total property tax collected in the City. San Bruno receives approximately \$0.125 cents from every property tax dollar paid in San Bruno. An additional \$0.02 cents of property tax revenue have come to the City in recent years from the Educational Revenue Augmentation Fund, commonly known as ERAF, but this is not a consistent or reliable revenue source to fund on-going operations in the long term. The remainder of property taxes paid by property owners in the City goes to San Mateo County, school districts, and special districts. The housing industry and home sales boomed when more people worked from home because of the Covid-19 pandemic and related stay-at-home directives. Secured property tax revenue was expected to increase by more than 4% over the prior fiscal year budget primarily due to higher property reassessment.
- Sales Tax of 9.75% is assessed on every taxable sale in San Bruno. Of the 9.75%, the City receives 1.5%, or approximately 15% of the total tax. For FY 2022-23 total Sales Tax revenue is anticipated to increase by 1% from the prior year's receipts. The sale of Tanforan Mall will cause reduced sales in the area, although the loss may be partially offset by other businesses and higher prices due to inflation. The California Department of Tax and Fee Administration (CDTFA) is currently reviewing its distribution of Bradley Burns Sales and Use Tax to the City. Staff will adjust the forecast of sales tax revenue after CDTFA informs the City of its final decision.
- Transient Occupancy Tax (TOT) in the amount of 14% is collected on the cost of each room rental at each of the 12 lodging establishments in the City. Occupancy in hotels declined by more than 75% shortly after the start of the Covid-19 pandemic. The hospitality industry within City limits continues to recover, although it has not reached pre-pandemic levels. Staff is projecting continued recovery and an increase of a 60% in TOT revenue in FY 2022-23 to approximately \$2.8 million.
- Business license tax is an annual tax based on prior year gross receipts. The Covid-19 pandemic devastated many sectors of San Bruno's business community, and many businesses reported lower gross receipts for FY 2021-22. For the next year, businesses will continue to face challenges with expected higher than normal inflation, disrupted supply chains, and tight labor markets. Therefore, staff reduced estimated business license tax revenue by 7%.
- Departmental Revenue Total departmental revenues are projected to decrease by 6% compared to the FY 2021-22 budget. The Building Division of the Community and Economic Development Department revised its revenue forecast per project pipeline. Some revenues previously anticipated for FY 2021-22 will be anticipated to be received in FY 2022-23.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2022

General Fund Expenditures

- Regular and Part-Time Salaries Salaries for all full time and part time staff is the single largest category of expenditures in the operating budget, totaling approximately 43.0% of all General Fund expenditures. The total budget for regular, part-time, and overtime salaries across all General Fund departments is \$24.0 million.
- CalPERS Retirement Employee retirement benefits total \$10.7 million, or 19.2% of General Fund expenditures. This amount represents an increase of approximately \$1.2 million compared to the FY 2021-22 budget. The City continues to experience significant impacts from increasing costs for retirement benefits through the CalPERS system.
- Employee Insurance Premiums Employee insurance benefits (medical, life and long-term disability) are provided through the Teamster's Health and Welfare Trust, and amount to \$5.1 million in FY 2022-23. The Trust notifies the City of the projected premium increase at the end of each calendar year.

Enterprise Funds

- The City completed a comprehensive review of operating and capital needs in the Water and Wastewater Enterprises, and established a new multi-year utility rate schedule in April 2017. The rate analysis included an evaluation of all operational costs and the planned schedule and costs for delivery of capital improvement projects necessary to replace and rehabilitate the City's aging water and wastewater system infrastructure. The multi-year water and wastewater rate program adopted by the City Council in May 2017 provides for an annual 5% rate increase through FY 2021-22. To lessen the financial burden on residents in the era of COVID-19, the City Council decided not to increase water and wastewater rates in FY 2021-22 or FY 2022-23.
- The Stormwater Enterprise is responsible for maintaining the stormwater conveyance system as well as adhering to the requirements outlined in the National Pollutant Discharge Elimination System. Stormwater fees are collected through the County property tax, and a minimum of \$46.16 per assessor parcel number is assessed for most properties in San Bruno. These fees have been in place since 1994 and are inadequate to fund ongoing operations and necessary equipment and capital investments to meet federal requirements. The City has not been able to collect sufficient revenue to replace and repair portions of the aging stormwater system. The City held a mail ballot property-owner election to increase the Storm Drainage and Flood Protection Fee on June 15, 2021. The initiative was rejected by the voters, and the City is exploring alternative options to address needed stormwater system improvements in FY 2022-23.
- CityNet Fund CityNet has continued making improvements in FY 2021-22 to control expenses and focus on higher margin business. In its long-range financial forecast, the negative fund balance is expected to grow to at least \$20.0 million in FY 2023-24 and is not likely to decrease in subsequent years. With an imminent plan to continue the Enterprise's fiber upgrade with Council approval and launch a new streaming TV product, CityNet is positioning itself to implement technological improvements to serve existing customers, attract new customers, and potentially become financially solvent in future years.

Capital Improvement Program and Debt Service

• The FY 2022-23 CIP identifies 93 projects organized in 10 categories. \$283.2 million in capital investment is programmed through the 5-year CIP to assure rehabilitation, replacement, and improvement of City facilities and infrastructure. \$180.7 million of this amount is the expected cost of scheduled improvements to the City's water and wastewater systems. A total of \$6.0 million is set-aside to meet debt service obligations.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2022

Contacting the City's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to show the City's accountability for the revenues it received. Questions about this report should be directed to the Finance Department at webfinance@sanbruno.ca.gov or 567 El Camino Real, San Bruno, CA 94066. This report as well as other financial reports can be viewed on the City of San Bruno's website at www.sanbruno.ca.gov.

FUND FINANCIAL STATEMENTS

Governmental Fund Financial Statements

Proprietary Fund Financial Statements

Fiduciary Fund Financial Statements

MAJOR GOVERNMENTAL FUNDS

General Fund

The General Fund is the primary operating fund of the City, accounting for all activities except those legally or administratively required to be accounted for in other funds. The General Fund includes activities such as public safety, parks and recreation services, community and economic development, public works and streets maintenance, legal and administrative services. The General Fund also accounts for reserves, Measure G funds, American Rescue Plan Act funds, and developer contributions.

Parks and Facilities Capital Improvement Fund

Accounts for funds expended on the improvement and development of the City's facilities, infrastructure, major equipment and technological upgrades used to deliver services to the community. Funding comes from the General Fund, grants, and other sources.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Government-Wide Statement of Activities For the year ended June 30, 2022

Net Change in Fund Balances - Total Governmental Funds	\$	5,258,354
Amounts reported for governmental activities in the Government-Wide Statement of Activities were different because:		
Governmental funds reported capital outlay as expenditures. However, in the Government-Wide Statement of Activities, the cost of those assets was allocated over their estimated lives as depreciation expense. This was the amount of capital assets recorded in the current period, net of the amount related to internal service funds.		16,739,220
Depreciation expense on capital assets was reported in the Government-Wide Statement of Activities, but did not require the use of current financial resources. Therefore, depreciation expense was not reported as expenditures in the governmental funds, net of the amount related to internal service funds.		(3,795,499)
Accrued compensated leave payments were reported as expenditures in the governmental funds, however expense is recognized in the Government-Wide Statement of Activities based on earned leave accruals.		121,851
Debt proceeds provide current financial resources to governmental funds, but issuing debt increased long-term liabilities in the Government-Wide Statement of Net Position. Repayment of debt was an expenditure in governmental funds, but the repayment reduced long-term liabilities in the Government-Wide Statement of Net Position.		
Long-term debt repayments		1,357,151
Issuance of long-term debt		(1,600,000)
Amortization of bonds premium (discount), net		(19,518)
Current year employer pension contributions are recorded as expenditures in the governmental funds, however, these amounts are reported as a deferred outflow of resources in the Government-Wide Statement of Net Position.		0.740.214
of Net 1 ostion.		9,740,214
Pension expense is reported in the Government-Wide Statement of Activities does not require the use of current financial resources, and therefore is not reported as expenditures in governmental funds.		(8,934,583)
Internal service funds were used by management to charge the costs of certain activities, such as insurance and fleet management, to individual funds. The net revenue (expense) of the internal service funds was reported with governmental activities.		400,923
Change in Net Position of Governmental Activities	•	19,268,113
Change in Net I obtain of Governmental Activities	Ψ	19,200,113

PROPRIETARY FUNDS

Proprietary funds account for City operations financed and operated in a manner similar to a private business enterprise. The intent of the City is that the cost of providing goods and services be financed primarily through user charges.

The City has identified the funds below as major proprietary funds.

Water Fund

To account for water services provided to the citizens of San Bruno. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, capital improvement, and billing and collections.

Stormwater Fund

To account for storm drain system maintenance, street sweeping and other related activities to the citizens of San Bruno. Funding comes from customers connected to the City's sewer system, due to extensive infiltration and intrusion to the City's sewer system and street sweeping charges.

Wastewater Fund

To account for sanitary sewer services provided to the citizens of San Bruno. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, treatment and capital improvement.

CityNet Fund

To account for operating and capital improvement costs to provide a full suite of video, data and voice services to residential and business customers.

Statement of Net Position

FIDUCIARY FUNDS

Fiduciary funds are used to report assets held for fiduciary activities, which may be carried out by primary governments or their component units. Fiduciary funds may be (1) held for legally established trust funds or similar arrangements, or (2) held outside of a trust exclusively for the benefit of individuals or organizations and used for activities that meet the criteria to be treated as fiduciary activities.

Redevelopment Agency Obligation Retirement Trust Fund

To account for the assets, liabilities and activities of the former Redevelopment Agency of the City in a trustee capacity to pay for enforceable obligations of the former Redevelopment Agency. In accordance with Assembly Bill (AB) X1 26 and AB 1484, the San Bruno Redevelopment Agency was dissolved February 1, 2012.

Recology San Bruno Custodial Fund

To account for funds billed, collected, and remitted to Recology San Bruno for waste management services within the City.

NOTES TO BASIC FINANCIAL STATEMENTS

This page intentionally left blank.

1. SUMMARY OF SIGNFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The financial reporting entity consists of (a) the primary government, the City of San Bruno (City), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

B. Related Organizations

The San Bruno Community Foundation (Foundation) is a California nonprofit corporation which was organized in 2013 as a public benefit 501(c)(3) nonprofit corporation and has been determined to be a Type I supporting organization under Section 509(a)(3) of the Internal Revenue Code. Pursuant to the settlement agreement dated March 12, 2012, between Pacific Gas & Electric Company (PG&E) and the City of San Bruno, both parties agreed to resolve and settle all claims arising out of the September 9, 2010, pipeline incident. The terms required PG&E to contribute a total of \$70 million to the City, which comprised of 1) five vacant plots of land in the Glenview (Crestmoor) neighborhood, which had a total fair market value of \$1,250,000 and 2) \$68,750,000 in cash, to transfer to a tax-exempt, nonprofit public purpose entity. Hence, the Foundation was created from the Settlement Agreement. The Foundation engages primarily in the administration of PG&E restitution funds. The election of the Foundation's Board is controlled by the City. Separate financial statements for the Foundation may be obtained by contacting the San Bruno Community Foundation, 901 Sneath Lane, Ste. 209, San Bruno, CA 94066.

In the fiscal year ended June 30, 2022, The Foundation provided the City \$10,192,085 in grant funding for the Recreation and Aquatics Center project, \$10,000 for the COVID-19 rapid tests, and \$15,000 for the reduction of negative impacts of drugs on families. The City has recorded \$235,455 in receivables from the Foundation as of June 30, 2022.

C. Basis of Presentation

<u>Government-Wide Financial Statements</u> - The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

<u>Fund Financial Statements</u> - Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, fund balance/net position, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories, each of which is displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

C. Basis of Presentation, Continued

The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the City Council is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where the City Council has decided that periodic determination of net income is appropriate for accountability purposes.

A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- (a) Total assets, deferred outflows of resources, liabilities, deferred inflow of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and,
- (b) Total assets, deferred outflows of resources, liabilities, deferred inflow of resources, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined. However, some funds are reported as major funds due to the significance to the users of the financial statements.

The major funds of the financial reporting entity are described below.

Government Activities

<u>General Fund</u> – The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.

<u>Parks and Facilities Capital Improvement</u> – Accounts for funds expended on the improvement and development of the City's facilities, infrastructure, major equipment and technological upgrades used to deliver services to the community. Funding comes from the General Fund, grants, and other sources.

Business-type Activities

The City reported all its enterprise funds as major funds in the accompanying financial statements:

<u>Water Fund</u> – Accounts for water services provided to the citizens of San Bruno. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, capital improvement, and billing and collections.

<u>Stormwater Fund</u> – Accounts for storm drain system maintenance, street sweeping and other related activities to the citizens of San Bruno. Funding comes from customers connected to the City's sewer system, due to extensive infiltration and intrusion to the City's sewer system and street sweeping charges.

C. Basis of Presentation, Continued

<u>Wastewater Fund</u> - Accounts for sanitary sewer services provided to the citizens of San Bruno. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, treatment.

<u>CityNet Fund</u> - Accounts for operating costs associated with administering the cable television franchise.

The City also reports the following fund types:

<u>Internal Service Funds</u> – The Internal Service Funds are used to account for financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governments, on a cost-reimbursement basis. The internal service funds are used to account for central garage, insurance programs, technology development, and facility maintenance. These funds are eliminated as part of the reconciliation process and treated as governmental activities, since these are the primary funds served.

<u>Fiduciary Funds</u> – These funds include: Redevelopment Agency Obligation Retirement Trust Fund – which accounts for the assets, liabilities and activities of the former Redevelopment Agency of the City in a trustee capacity to pay for enforceable obligations of the former Redevelopment Agency; and Recology San Bruno Custodial Fund – which accounts for funds billed, collected, and remitted to Recology San Bruno for waste management services within the City.

D. Measurement Focus

Measurement focus is a term used to describe how transactions are recorded within the various financial statements.

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined in item b below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

(a) All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

D. Measurement Focus, Continued

- (b) The enterprise and internal service funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Enterprise and internal service fund equity is classified as net position.
- (c) Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the City.

E. Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period, considered to be 60 days, or soon enough thereafter to pay current liabilities. Major revenue sources meeting this criterion are property taxes, sales taxes, grants and interest. Expenditures (including capital outlay) are recorded when the related fund liability is incurred.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

The enterprise, internal service and fiduciary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as nonoperating expenses.

Assets, Liabilities, and Equity

F. Cash Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

F. Cash Deposits and Investments, Continued

The City pools cash and investments from all funds for the purpose of increasing income through investment activities. Highly liquid money market investments with maturities of one year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value in accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. Market value is used as fair value for those securities for which market quotations are readily available.

The City indirectly participates in an investment pool managed by the State of California titled Local Agency Investment Fund (LAIF) which invests a portion of the pool funds in Structured Notes and Asset-Backed Securities. LAIF's investments are subject to credit risk with the full faith and credit of the State of California collateralizing these investments. In addition, these Structured Notes and Asset-Backed Securities are subject to market risk such as changes in interest rates.

G. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Short-term interfund loans are reported as "interfund receivables and payables." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds."

Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position. See Note 3 for details of interfund transactions, including receivables and payables at year-end.

H. Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances of uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include property taxes, sales and use taxes, franchise taxes, intergovernmental subventions, interest earnings, paramedic service, and expense reimbursements.

Business-type activities report service charges and expense reimbursements as its major receivables. In the fund financial statements, significant receivables in governmental funds include revenue accruals such as property tax, sales tax, transient occupancy tax, franchise tax, and intergovernmental subventions since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with the modified accrual basis, but not deferred in the government-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available.

City of San Bruno Notes to Basic Financial Statements For the Year Ended June 30, 2022

1. SUMMARY OF SIGNFICANT ACCOUNTING POLICIES, Continued

H. Receivables, Continued

Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. Customer and intergovernmental accounts receivable comprise the majority of proprietary fund receivables.

I. Inventories

The cost of other consumable materials and supplies on hand are immaterial to the financial statements, and the City has therefore chosen to report these items as expenditures/expenses at the time of purchase.

J. Capital Assets

The City's assets are capitalized at historical cost or estimated historical cost if actual is available. Policy has set the capitalization threshold for reporting capital assets at \$10,000. Contributed capital assets are valued at their estimated acquisition value on the date contributed. Donated works of art and similar items and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value. Public domain (infrastructure) capital assets include roads, bridges, curbs and gutters, streets, sidewalks, drainage systems, and lighting systems and are capitalized at \$100,000.

The accounting treatment of property, plant and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements - Prior to July 1, 2003, governmental funds' infrastructure assets were not capitalized. These assets (back to July 1, 1980) have been valued at estimated historical cost.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Infrastructure	25 - 40 years
Buildings and improvements	20 - 30 years
Machinery and equipment	3 - 15 years
Water	5 - 40 years
Stormwater	5 - 40 years
Wastewater	5 - 40 years
Cable television	5 - 40 years

<u>Fund Financial Statements</u> - In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

K. Long-Term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as a liability in the government-wide statements. The long-term debt consists of bonds, finance purchase agreements, compensated absences and a liability for claims.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources, and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund statements as it is in the government-wide statements.

L. Compensated Absences

The City's policies regarding vacation time and compensatory time permit employees to accumulate earned but unused leave. The current portion of this debt is estimated based on historical trend and funded in the individual fund generating the liability with the long-term portion shown as a long-term liability.

The changes of the compensated absences were as follows:

	Governmental Activities		iness-Type .ctivities	Total		
Balance as of June 30, 2021 Additions	\$	2,870,027 678,088	\$ 581,801 113,072	\$	3,451,828 791,160	
Payments		(788,504)	 (149,174)		(937,678)	
Balance as of June 30, 2022		2,759,611	545,699		3,305,310	
Current Portion	\$	522,514	\$ 102,507	\$	625,021	

M. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's California Public Employees' Retirement System (CalPERS) plan (the Plan) and additions to/deductions from the Plan fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position or balance sheet reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position or balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Revenues, Expenditures, and Expenses

O. Property Tax

Under California law, property taxes are assessed and collected by the counties up to 1% of assessed value, plus other increases approved by the voters. The property taxes go into a pool and are then allocated to the cities based on complex formulas. Accordingly, the City accrues only those taxes which are receivable from the county within sixty days after year end.

Lien Date January 1
Levy Date July 1

Due Dates November 1 and February 1
Delinquent Date December 10 and April 10

Property taxes attach annually as an enforceable lien as of January 1. Taxes are levied on July 1, are payable in two installments, and are delinquent after December 10 and April 10. All general property taxes are then allocated by the San Mateo County Controller's Office to the various taxing entities in accordance with Proposition 13. Property tax revenues are recognized when levied to the extent that they are measurable and that they will be received in 60 days. Since the County utilizes the Teeter system of allocation, all property tax revenue is allocated to the City and accounted for as revenue in the fiscal year that it is levied.

P. Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenditures are classified as follows:

Governmental funds – by character Current (further classified by function) Capital outlay Debt service

City of San Bruno Notes to Basic Financial Statements For the Year Ended June 30, 2022

1. SUMMARY OF SIGNFICANT ACCOUNTING POLICIES, Continued

P. Expenditures/Expenses, Continued

In the fund financial statements, governmental funds report expenditures of current financial resources.

Q. Interfund Transfers

Resources are reallocated between funds by reporting them as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated with internal balances (between governmental and business-type activities) remaining on the statement of net position.

R. Prior Year Comparative Financial Information

The basic financial statements included certain prior year summarized comparative information. This information has been included for comparison purposes and does not represent a complete presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the City's prior year financial statements, from which this selected data was derived. Certain minor reclassifications of prior year data may have been made in order to enhance their comparability with current year figures.

S. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

T. Budgetary Policies

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- (a) Public meetings are conducted to obtain public comments. The City Council annually adopts the budget for the ensuing fiscal year prior to July 1st.
- (b) Legally adopted budgets and formal budgetary integration is employed as a management control device during the year for all Governmental, Proprietary and Fiduciary fund types.
- (c) Budgets for the General, Special Revenue, and Capital Project Funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

T. Budgetary Policies, Continued

- (d) Under Article XIII B of the California Constitution (the Gann Spending Limitation Initiative), the City is restricted as to the amount of annual appropriations from the proceeds of taxes, and if proceeds of taxes exceed allowed appropriations, the excess must either be refunded to the State Controller, returned to the taxpayers through revised tax rates or revised fees schedules, or an excess in one year may be offset against a deficit in the following year. For the fiscal year ended June 30, 2022 based on the calculations by City Management, proceeds of taxes did not exceed the appropriations limit.
- (e) Budgeted revenue and expenditure amounts represent the original budget modified by adjustments authorized during the year.
- (f) Appropriations, except for those encumbered under purchase orders, lapse at the end of the fiscal year. Encumbered amounts are then carried over for the coming year.
- (g) Budgeted appropriations for the various governmental funds become effective each July 1. The City Council may amend the budget during the fiscal year. The legal level of budgetary control has been established at the fund level.
- (h) Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for all governmental funds.

U. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 inputs are inputs – other than quoted prices included within level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability.

If the fair value of an asset or liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

V. Loans Receivable - Related Parties

The City routinely loans funds to employees, including to the City Manager, for the purchase of a primary residence within the City limits. Amounts range from \$65,000-\$200,000. The interest rate on these loans is set at the Local Agency Investment Fund (LAIF) interest rate. At June 30, 2022, six employees such loans were outstanding for an amount totaling \$749,809 owed to the City. Loans must be paid off within 15 years, or earlier if one of the following occurs: a) Six months following termination of the employee's employment with the City, b) three months following the employee no longer living at the residence. During the fiscal year, the City made new loans in the amount of \$95,000, and employees paid \$120,997 in principal.

W. New Pronouncements

The City adopted new accounting standards in order to conform to the following Governmental Accounting Standards Board Statements:

- ➤ GASB Statement No. 87, *Leases* The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The requirements of this statement did not apply to the City for the current fiscal year.
- ➤ GASB Statement No. 89, Construction-period interest The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. The requirements of this statement did not apply to the City for the current fiscal year.
- ➤ GASB Statement No. 92, *Omnibus* 2020 The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this statement did not apply to the City for the current fiscal year.
- ➤ GASB Statement No. 93, *Interbank offered rates* (*LIBOR removal and lease modifications*) The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an interbank offered rate. The requirements of this statement did not apply to the City for the current fiscal year.
- ➤ GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this statement did not apply to the City for the current fiscal year.

W. New Pronouncements

➤ GASB Statement No. 99, Omnibus 2022 – The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The requirements of this statement did not apply to the City for the current fiscal year.

2. CASH AND INVESTMENTS

The City pools cash from all sources and all funds, except certain specific investments within funds and cash with fiscal agents, so that it can be invested at the maximum yield, consistent with safety and liquidity, while individual funds can make expenditures at any time.

The City and its fiscal agents invest in individual investments and in investment pools. Individual investments are evidenced by specific identifiable pieces of paper called securities instruments, or by an electronic entry registering the owner in the records of the institution issuing the security, called the book entry system. Individual investments are generally made by the City's fiscal agents as required under its debt issues. In order to maximize security, the City employs the Trust Department of a bank as the custodian of all City managed investments, regardless of their form.

The City's investments are carried at fair value, as required by generally accepted accounting principles. The City adjusts the carrying value of its investments to reflect their fair value at each fiscal year end.

A. Classification

Cash and investments are classified in the financial statements as shown below, based on whether or not their use is restricted under the terms of City debt instruments or agency agreements.

Cash and investments as of June 30, 2022, consisted of the following:

	Amount
Statement of Net Position	
Cash and investments	\$ 157,370,778
Restricted cash and investments held by fiscal agents	2,060,402
Total cash and investments in primary government	\$ 159,431,180
Statement of Fiduciary Net Position	
Cash and Investments	
Private Purpose Trust Funds	1,856,902
Custodial Funds	590,885
Restricted cash investments held by fiscal agents	9
Total cash and investments in fiduciary	2,447,796
Total cash and investments	\$ 161,878,976

Cash and investments with original maturities of three months or less are treated as cash and equivalents for the purpose of preparing Proprietary Fund statements of cash flows. Also, each Proprietary Funds' portion of the City's overall cash and investment pool is treated as cash and equivalents since these amounts are in substance demand deposits.

B. Investments Authorized by the California Government Code and the City's Investment Policy

Investments are reported at fair value. California statutes authorize cities to invest idle or surplus funds in a variety of credit instruments as provided for in the California Government Code, Section 53600, Chapter 4 – Financial Affairs. The table below identifies the investment types that are authorized for the City by the California Government Code (or the City's investment policy, where more restrictive) that address interest rate risk, and concentration of credit risk.

During the year ended June 30, 2022, the City's permissible investments included the following instruments:

Authorized Investment Type	Maximum Maturity	Minimum Credit Quality	Maximum Percentage of Portfolio	Investment in One Issuer
U.S. Treasury bills, bonds, notes, obligations	5 years	None	None	None
U.S. agency securities	5 years	AA+	75%	None
Commercial paper	270 days	A-1	25%	10%
LAIF	N/A	None	State \$ Limit	N/A
San Mateo County pool	N/A	None	20%	N/A
Non-negotiable certificates of deposit	5 years	A	15%	5%
California municipal bonds	5 years	AA	30%	5%
Money market funds	N/A	N/A	20%	N/A
	65			

B. Investments Authorized by the California Government Code and the City's Investment Policy, Continued

The City complied with the provisions of California Government Code (or the City's investment policy, where more restrictive) pertaining to the types of investments held, institutions in which deposits were made and security requirements. The City will continue to monitor compliance with applicable statutes pertaining to public deposits and investments.

C. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates which will adversely affect the fair value of an investment. Normally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. As a means of limiting its exposure to fair value losses arising from rising interest rates, one of the ways the City manages its exposure to interest rate risk is by purchasing a combination of shorter and longer term investments. This allows the City to time cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturing evenly over time as necessary to provide the cash flow and liquidity needed for operations. The City also manages its interest rate risk by holding most investments to maturity, thus reversing unrealized market gains and losses.

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustees) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity or earliest call date:

12 Months or less		13 to 24 Months		25 to 60 Months		Total	
\$	-	\$	14,088,635	\$	55,947,251	\$	70,035,886
	-		-		25,348,013		25,348,013
	26,560,725		-		-		26,560,725
	25,181,242		-		-		25,181,242
	-		-		483,645		483,645
	2,195,742		-		-		2,195,742
\$	53,937,709	\$	14,088,635	\$	81,778,909	\$	149,805,253
							12,073,723
						\$	161,878,976
	\$	\$ - 26,560,725 25,181,242 - 2,195,742	\$ - \$ 26,560,725 25,181,242 - 2,195,742	\$ - \$ 14,088,635 	\$ - \$ 14,088,635 \$ - 26,560,725 - 25,181,242 2,195,742 -	\$ - \$ 14,088,635 \$ 55,947,251 25,348,013 26,560,725 25,181,242 483,645 2,195,742	\$ - \$ 14,088,635 \$ 55,947,251 \$ - 25,348,013 26,560,725 25,181,242 483,645 2,195,742 \$ 53,937,709 \$ 14,088,635 \$ 81,778,909 \$

The City's investments in U.S. Treasuries, U.S. Agencies, and municipal bonds had a weighted average maturity of 3.2 years at June 30, 2022.

C. Interest Rate Risk, Continued

The City is a participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. LAIF management calculates the fair value and cost of the entire LAIF pool. The City adjusts its cost basis invested in LAIF to fair value based upon this factor. The City's investments with LAIF at June 30, 2022, include a portion of the pool funds invested in Structured Notes and Asset-Backed Securities. These investments include the following:

<u>Structured Notes</u> – are debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or have embedded forwards or options.

<u>Asset-Backed Securities</u> – the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

As of June 30, 2022, the City had \$26,560,725 invested in LAIF, which had invested 1.88% of the pool investment funds in Structured Notes and Asset-Backed Securities as compared to 2.31% in the previous year. The LAIF fair value factor of 0.987125414 was used to calculate the fair value of the investments in LAIF.

The City invests in the San Mateo County Pooled Investment Fund (SMCPIF), an external investment pool. The pool determines fair value on its investment portfolio based on market quotations for those securities where market quotations are readily available, and valuations are based on amortized cost or best estimate for those securities where market value is not readily available. The responsibility for managing the SMCPIF resides with the County Treasurer. The County Board of Supervisors, in consultation with the Treasurer, establishes an eight-member County Treasury Oversight Committee pursuant to California Government Code Section 27130. The investment program is supervised within the guidelines set forth in the investment policy developed by the Treasurer, reviewed and approved annually by the County Treasury Oversight Committee and the County Board of Supervisors.

The SMCPIF fair value factor is determined by dividing all SMCPIF participants' total aggregate fair value by total aggregate amortized cost resulting in a factor of 0.9688. The financial statements for the San Mateo County are available in the San Mateo County website at www.co.sanmateo.ca.us.

D. Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

D. Fair Value Hierarchy, Continued

The following is a summary of the fair value hierarchy of the fair value of investments of the City as of June 30, 2022:

Investments by Fair Value Level:	vestments by Fair Value Level: Level 2		Total				
U.S. Treasuries & Agencies	\$	70,035,886	\$	70,035,886			
Municipal Bonds		25,348,013		25,348,013			
Certificate of Deposit		483,645		483,645			
Money Market Mutual Fund		2,195,742		2,195,742			
Totals	\$	98,063,286	\$	98,063,286			
Investments Measured Using Fair Value Factor:							
Local Agency Investment Fund (LAIF)				26,560,725			
San Mateo County Investment Pool				25,181,242			
Totals				51,741,967			
Total Investments			\$	149,805,253			

Federal Agency Securities, classified in Level 2 of the fair value hierarchy, are valued using a quoted price in a non-active market for an identical asset. Municipal Bonds, classified in Level 2 of the fair value hierarchy, are valued using yield to maturity quoted price. These prices are obtained from various pricing sources by the custodian bank. The California Local Agency Investment Fund (LAIF) and San Mateo County Investment Pool are classified as exempt in the fair value hierarchy, as they are valued at amortized cost, which is exempt from being classified under GASB 72. Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by the custodian bank.

E. Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. As disclosed in Note 2B, State law and the City's investment Policy limit the City's investments to certain minimum credit ratings. Minimal credit ratings are also established by the bond indentures in the case of cash and investments held by fiscal agents. Presented below is the actual rating as of June 30, 2022, for each investment type as provided by Moody's investment rating system:

Investment Type	Aaa	Aa1	Aa2	Aa3	Total
U.S. Government Agencies	\$ 1,055,332	\$ -	\$ -	\$ -	\$ 1,055,332
U.S. Treasury Notes	65,198,754	-	-	-	65,198,754
Municipal Bonds	2,753,500	2,891,600	12,060,250	3,760,090	21,465,440
Totals	69,007,586	2,891,600	12,060,250	3,760,090	87,719,526
Not Rated:					
U.S. Treasury Notes					3,781,800
Municipal Bonds ¹					3,882,573
Money Market Funds					2,195,742
Certificate of Deposit					483,645
Local Agency Investment Fu	und (LAIF)				26,560,725
San Mateo County Investme	ent Pool				25,181,242
Total Investments					\$ 149,805,253

 $^{^{1}\,\}mbox{S\&P}$ ratings for these bonds range from AA- to AA

3. TRANSFERS AMONG FUNDS

A. Transfers Among Funds

With Council approval, resources may be transferred from one City fund to another. Transfers between funds during the fiscal year ended June 30, 2022, were as follows:

	Transfers In									
			Non-Major			Internal				
	General	Parks and	Governmental	l		Service				
Transfers Out	Fund	Facilities	Funds	Stormwater	CityNet	Funds	Total			
Major Funds:										
General Fund	\$ -	\$ 500,000	\$ 1,634,449	\$ 1,000,000	\$ 250,000	\$ 443,439	\$ 3,827,888			
Parks and Facilities	690,904	-	1,070	-	-	-	691,974			
Non-Major Governmental Funds	2,643,313	745,336	4,017,802	-	-	-	7,406,451			
Major Enterprise Funds:										
Water	457,100	-	-	-	-	-	457,100			
Wastewater	1,207,882	-	-	-	-	-	1,207,882			
CityNet	95,399	90,000					185,399			
Total	\$ 5,094,598	\$ 1,335,336	\$ 5,653,321	\$ 1,000,000	\$ 250,000	\$ 443,439	\$13,776,694			

General Fund

Transfers from the General Fund to Parks and Facilities, CityNet, \$352,027 to the non-major governmental funds, and all transfers to internal service funds were to support budgeted capital projects. The purpose of transferring \$1,282,422 from the General Fund to the Non-Major Governmental Funds was to make payments on long-term debt.

Transfers to the General Fund from the Wastewater and Water funds, \$42,270 from the Parks and Facilities fund, and \$850,000 from the non-major governmental funds were to support capital projects. \$200,000 from non-major governmental funds was used to support the police department. The purpose of the remainder of the transfers in to the General Fund were to return unspent project monies.

Parks and Facilities Capital Improvement Fund

Transfers in to the Parks and Facilities fund from the non-major governmental funds and the CityNet Fund were for capital projects. Transfers out to the non-major governmental funds from the Parks and Facilities fund were to support capital projects.

3. TRANSFERS AMONG FUNDS, Continued

B. Interfund Advances

During fiscal year 2016, the General Fund loaned the CityNet Services Enterprise Fund \$1,170,000 for a Fiber to Home project at the Shelter Creek Condominiums. The advance accrues interest at a 0.525% annual interest rate for seven years. At June 30, 2022, the balance of the advance was \$155,671. For multiple fiscal years, CityNet Services Enterprise Fund has had a negative cash balance. The City is developing a plan to reduce the net operating loss and repay the General Fund the balance due. At June 30, 2022, the cash balance due to the General Fund was \$15,062,775.

Fund Receiving Advance	Fund Making Advance	Advance
City Net Services Enterprise Fund Federal/State Grant Special Revenue Fund (nonmajor)	General Fund General Fund	\$15,218,446 98,449
	Total	\$15,316,895

4. CAPITAL ASSETS

A. Capital Asset Additions and Retirements

Governmental activities capital assets as of June 30, 2022 comprise:

B. Governmental Activities

2013 Pension Obligation Bonds

In January 2013, the City issued \$13,175,000 in Series 2013 Pension Obligation Bonds in order to pay off amounts owed for the City's CalPERS "side-fund." Principal payments are due annually on June 1 while interest payments are due semi-annually on June 1 and December 1. True interest cost is 4.05%.

The Pension Obligation Bond debt represents a refunding of a debt that the City owed to CalPERS. The issuance of the Pension Obligation Bonds reduced the interest rate on this debt from 7.5% to just over 4%. The debt service payments are funded through savings achieved in the City's employer contribution rate, which decreased from 36.604% to 24.706% after the payoff of the side fund. Payments are made out of the debt service fund.

The Bonds are payable from any source of legally available funds of the City. The bond covenants contain events of default that require the revenue of the City to be applied by the Trustee as specified in the terms of the agreement if any of the following conditions occur: default on debt service payments; the failure of the City to observe or perform the conditions, covenants, or agreement terms of the debt; bankruptcy filing by the City; or if any court or competent jurisdiction shall assume custody or control of the City. During fiscal year 2021-22, the City made principal and interest payments totaling \$940,000 and \$240,075, respectively. The bonds mature on June 1, 2027.

B. Governmental Activities, Continued

The annual debt service requirement on the 2013 Pension Obligation Bonds is as follows:

2013 Pension Obligation Bonds

For The Year			
Ending June 30	Principal	Interest	Total
2023	\$ 970,000	\$ 207,175	\$ 1,177,175
2024	1,005,000	170,800	1,175,800
2025	1,045,000	130,600	1,175,600
2026	1,090,000	88,800	1,178,800
2027	1,130,000	45,200	1,175,200
Subtotal	5,240,000	642,575	5,882,575
Less Discount	(97,590)		(97,590)
Total	\$ 5,142,410	\$ 642,575	\$ 5,784,985

Direct Borrowings

In April 2017, the City entered into a \$1,873,846 capital lease-purchase agreement with JP Morgan Chase Bank, N.A. to finance a fire engine and a fire truck. Principal and interest payments were due semi-annually on April 28 and October 28 with an interest rate of 1.89%. Payments were made out of the debt service fund. During fiscal year 2021-22, the City made principal and interest payments totaling \$90,522 and \$855, respectively. The lease purchase agreement was paid in full on October 28, 2021.

In October 2018, the City entered into a \$1,630,339 capital lease-purchase agreement with Key Government Finance, Inc., to purchase router equipment for the Cable Enterprise Fund. Principal payments are due annually on November 26 with an interest rate of 3.75%. The debt payments are made by the General Fund until the Cable Fund recognizes adequate revenue to pay for the annual lease-purchase payments. During fiscal year 2021-22, the City made principal and interest payments totaling \$326,629 and \$25,398, respectively. The lease-purchase agreement will be paid in full on November 26, 2022.

The annual debt service requirement on the 2018 cable router obligation is as follows:

2018 Cable Router Obligation

Total	\$ 339,090	\$ 12,937	\$ 352,027	
2023	\$ 339,090	\$ 12,937	\$ 352,027	
Ending June 30	Principal	Interest	Total	
For The Year				

B. Governmental Activities, Continued

In June 2022, the City entered into a \$1,600,000 capital lease-purchase agreement with Western Alliance Equipment Finance, Inc., to purchase two fire pumper trucks. Principal payments are due semi-annually on December 1 and June 1 with an interest rate of 3.35%. The debt payments are made by the debt service fund. The first payment on the debt will be December 1, 2022 and will be paid in full on June 1, 2032.

The annual debt service requirement on the 2022 fire pumper trucks borrowing is as follows:

				 9
For the Year				
Ending June 30	Principal	I	nterest	Total

C. Business-Type Activities

2017 Water Revenue Bonds

In December 2017, the San Bruno Public Financing Authority issued \$11.62 million of Series 2017 Water Revenue Bonds to finance the construction of certain improvements to the Water System. Principal payments commenced on July 1, 2018 and are payable annually on July 1. Interest payments are payable on July 1st and January 1st of each year.

The Bonds are payable solely from the Net Revenues of the Water System. The bond covenants contain events of default that require the revenue of the City to be applied by the Trustee as specified in the terms of the agreement if any of the following conditions occur: default on debt service payments; the failure of the City to observe or perform the conditions, covenants, or agreement terms of the debt; bankruptcy filing by the City; or if any court or competent jurisdiction shall assume custody or control of the City. During fiscal year 2021-22, the City made principal and interest payments totaling \$220,000 and \$457,250, respectively. The bonds mature on July 1, 2047.

C. Business-Type Activities, Continued

The annual debt service requirement on the bonds is as follows:

2017 Water Revenue

2017 Wastewater Revenue Bonds

In December 2017, the San Bruno Public Financing Authority issued \$24.47 million of Series 2017 Wastewater Revenue Bonds to finance the construction of certain improvements to the Wastewater System. Principal payments commenced on July 1, 2018 and are payable annually on July 1. Interest payments are payable on July 1st and January 1st.

The Bonds are payable solely from Net Revenues of the Wastewater System. The bond covenants contain events of default that require the revenue of the City to be applied by the Trustee as specified in the terms of the agreement if any of the following conditions occur: default on debt service payments; the failure of the City to observe or perform the conditions, covenants, or agreement terms of the debt; bankruptcy filing by the City; or if any court or competent jurisdiction shall assume custody or control of the City. During fiscal year 2021-22, the City made principal and interest payments totaling \$470,000 and \$963,450, respectively. The bonds mature on July 1, 2047.

2013 Wastewater Revenue Refunding Bonds

In August 2013, the City paid off the remaining balance or \$7.56 million of 2002 Certificates of Participation by placing the proceeds of new Wastewater Revenue Refunding Bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. All of the amounts held in the escrow fund were applied to pay the prepayment price of the 2002 certificates and, therefore, the 2002 Certificates of Participation were paid-off as of June 30, 2014.

The Bonds are payable solely from Net Revenues of the Wastewater System. The bond covenants contain events of default that require the revenue of the City to be applied by the Trustee as specified in the terms of the agreement if any of the following conditions occur: default on debt service payments; the failure of the City to observe or perform the conditions, covenants, or agreement terms of the debt; bankruptcy filing by the City; or if any court or competent jurisdiction shall assume custody or control of the City. During fiscal year 2021-22, the City made principal and interest payments totaling \$320,000 and \$217,200 respectively. The bonds mature on July 1, 2032.

City of South San Francisco Sewer Plant Agreement

The City entered into a joint-ownership agreement with the City of South San Francisco (SSF) to operate a water quality control plant and appurtenant facilities to service both communities. The agreement was entered into in January 1947 and has numerous subsequent amendments that detail various aspects in sharing the capital investment (including related debt service) and operating expenses related to the joint sewage plant. Operating costs of the enterprise are shared in accordance with a formula and division of operation and maintenance cost set forth in an agreement dated April 3, 1972. The most recent arrangement indicates that the City shares in 25.82% of the plant capacity. There are no separately issued financial statements for this agreement.

To finance the expansion of the water quality control plant, the State Water Resources Control Board issued loans directly to SSF totaling \$81,253,444 (\$8.8 million in October 1994, \$50.6 million in August 2003 and \$21.9 million in April 2007). Loan proceeds were disbursed as the projects progressed and debt service payments commenced one year after project completion. As a result of the joint ownership agreement, the City is obligated to SSF for its portion of the loans. The City's portion that was financed through this agreement totaled \$19,170,177 depreciable and payable over a 25-year period. During fiscal year 2021-22, the City made principal and interest payments totaling \$965,271, and \$82,751, respectively. The loans will be paid in full on August 1, 2022 and April 30, 2026.

C. Business-Type Activities, Continued

The City's annual debt service requirements on the loans are as follows:

D. Fiduciary Funds

The following is a summary of the Redevelopment Obligation Retirement Fund's long-term debt transactions for the year ended June 30, 2022:

•	Balance			Balance		Amount due within	
	Jur	ne 30, 2021	Retirements		June 30, 2022	one year	
2019 Lease Revenue Bonds	\$	4,055,000	\$	340,000	\$ 3,715,000	\$	350,000
Premium on Refunding Bond		524,220		52,422	471,798		_
Total Fiduciary Activity	\$	4,579,220	\$	392,422	\$ 4,186,798	\$	350,000

2019 Lease Revenue Bonds

In 2000, the City issued City of San Bruno Certificates of Participation, Series 2000 (Police Facility Financing) in the original principal amount of \$9,600,000 to fund the construction of the Police Facility. In March 2019, the City paid off the remaining balance of \$6 million of 2000 Certificates of Participation by placing the proceeds of the new Lease Revenue Bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. All of the amounts held in the escrow fund were applied to pay the prepayment price of the 2000 Certificates and, therefore, the 2000 Certificates of Participation were paid off as of June 30, 2019.

D. Fiduciary Funds, Continued

Principal payments are due annually on May 1 and interest payments are due semi-annually on May 1 and November 1. Interest rates range from 4.00% to 5.00%. During fiscal year 2021-22, the City made principal and interest payments totaling \$340,000, and \$171,650, respectively.

The Bonds are payable from any source of available funds of the City. The bond covenants contain events of default that require the revenue of the City to be applied by the Trustee as specified in the terms of the agreement if any of the following conditions occur: default on debt service payments; the failure of the City to observe or perform the conditions, covenants, or agreement terms of the debt; bankruptcy filing by the City; or if any court or competent jurisdiction shall assume custody or control of the City.

	2019 L	2019 Lease Revenue Bonds

Subtotal Add Premium	3,715,000 471,798	863,450	4,578,450 471,798				
Total	\$ 4,186,798	\$ 863,450	\$ 5,050,248				

6. NET POSITION AND FUND BALANCES

Net Position is measured on the full accrual basis while Fund Balance is measured on the modified accrual basis.

A. Net Position

Net Position is the excess of all the City's assets and deferred outflows, if any, over all its liabilities and deferred inflows, if any, regardless of fund. Net Position is divided into three captions. These captions apply only to Net Position, which is determined only at the Government-wide level, and are described below:

<u>Net Investment in Capital Assets</u> describes the portion of Net Position which is represented by the current net book value of the City's capital assets, less the outstanding balance of any debt issued to finance these assets.

City of San Bruno Notes to Basic Financial Statements For the Year Ended June 30, 2022

6. NET POSITION AND FUND BALANCES, Continued

A. Net Position, Continued

<u>Restricted</u> describes the portion of Net Position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the City cannot unilaterally alter.

<u>Unrestricted</u> describes the portion of Net Position which is not restricted to use.

B. Fund Balances

The City's fund balances are classified in accordance with Governmental Accounting Standards Board Statement Number 54 (GASB 54), Fund Balance Reporting and Governmental Fund Type Definitions, which requires the City to classify its fund balances based on spending constraints imposed on the use of resources. For programs with multiple funding sources, the City prioritizes and expends funds in the following order: Restricted, Committed, Assigned, and Unassigned. Each category in the following hierarchy is ranked according to the degree of spending constraint:

<u>Nonspendables</u> represents balances set aside to indicate items that do not represent available, spendable resources even though they are a component of assets. Fund balances required to be maintained intact, such as Permanent Funds, and assets not expected to be converted to cash, such as prepaids, notes receivable, and land held for resale are included. However, if proceeds realized from the sale or collection of nonspendable assets are restricted, committed or assigned, then Nonspendable amounts are required to be presented as a component of the applicable category.

<u>Restricted</u> fund balances have external restrictions imposed by creditors, grantors, contributors, laws, regulations, or enabling legislation which requires the resources to be used only for a specific purpose. Nonspendable amounts subject to restrictions are included along with spendable resources.

<u>Committed</u> fund balances have constraints imposed by resolution of the City Council which may be altered only by resolution of the City Council. Nonspendable amounts subject to council commitments are included along with spendable resources.

<u>Assigned</u> fund balances are amounts constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. Intent is expressed by the City Council or its designee and may be changed at the discretion of the City Council or its designee. This category includes encumbrances; Nonspendables, when it is the City's intent to use proceeds or collections for a specific purpose, and residual fund balances, if any, of Special Revenue, Capital Projects and Debt Service Funds which have not been restricted or committed. Through a Council Resolution, the City Council has designated the City Manager to determine the amount of assigned fund balances.

<u>Unassigned</u> fund balance represents residual amounts that have not been restricted, committed, or assigned. This includes the residual General Fund balance and residual fund deficits, if any, of other governmental funds.

6. NET POSITION AND FUND BALANCES, Continued

C. Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City Council has provided otherwise in its commitment or assignment actions.

D. Encumbrances

The City uses an encumbrance system as an extension of normal budgetary accounting for governmental funds. Encumbrance accounting is utilized to the extent necessary to ensure effective budgetary control and accountability and to facilitate effective cash planning and control. Unexpended appropriations lapse at year-end and must be re-appropriated in the following year. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

Governmental Funds	Amount		
Major Funds:			
General Fund	\$ 2,158,860		
Parks and Facilities Capital Improvement	37,518,566		
Total Major Funds	39,677,426		
Non-Major Funds:			
Street Improvement Capital Projects	2,081,149		
Other non-major funds	75,375		
Total Non-Major Funds	2,156,524		
Total	\$41,833,950

Total Fund Balances	\$	46,596,269	\$	(170,178)	\$	16,979,084	\$	63,405,175

The City established a reserve policy in January 2013 by resolution. The policy, based on a risk analysis specific to the City and other considerations such as the size of the City, budget practices, and debt levels, establishes targeted levels for the General Fund Reserve (25% of budgeted expenditures), General Fund Contingency (minimum \$1,500,000) and Capital Improvement/One-Time Initiative Reserve (minimum \$5,000,000). The actual reserve levels are adopted by resolution with each annual budget, or as recommended by the Finance Director based upon an update of the City's fiscal needs. As the City Council and management can only use reserves for purposes consistent with the purposes described in the policy, these reserve amounts are reported as assignments of the General Fund's balance.

City of San Bruno Notes to Basic Financial Statements For the Year Ended June 30, 2022

6. NET POSITION AND FUND BALANCES, Continued

E. Fund Balances, Continued

The General Fund Reserve can only be utilized through resolution of the City Council. Appropriations of these funds are reserved for the following situations: A decrease in revenues in excess of 5% of total budgeted General Fund revenues within one year, the loss of revenues from another government entity, and one-time, non-recurring initiatives of the City Council deemed of significant importance to the City. The balance at June 30, 2022 was \$12,340,108.

The General Fund Contingency Reserve can be utilized through resolution for a budget appropriation deemed appropriate by City Council. The balance at June 30, 2022 was \$4,168,818.

The Emergency Disaster Reserve is intended to be utilized in the event of a declaration of emergency that requires the expenditure of funds outside of the adopted budget. The Emergency Disaster Reserve can only be utilized through resolution of the City Council declaring an emergency. Upon such declaration, it would be the intent of the City to utilize the Emergency Disaster Reserve for all costs associated with the City's response to the emergency situation prior to any other reserve funds. The balance at June 30, 2022 was \$2,777,340.

The Capital Improvement/One-Time Initiative Reserve Fund is available for the capital improvement program projects and initiatives of significant importance to the City that have no other dedicated funding source. These projects include improvements to City facilities, parks, and technology. The balance at June 30, 2022 was \$4,600,000.

Encumbrances represent commitments related to contracts not yet performed and purchase orders not yet filled. The total encumbrances at June 30, 2022 were \$2,158,860.

F. Net Position and Fund Balance Deficits

The City has a deficit net position of \$18,675,652 in the CityNet Services Enterprise Fund, which will be funded through additional revenues expected from offering higher margin cable and internet packages and expense reductions. The City also has a deficit net position of \$3,463,603 in the Self Insurance Internal Service Fund which will be funded by future cost allocations from other funds.

The City has a deficit fund balance of \$170,178 in the Parks and Facilities Capital Improvement Fund and \$74,235 in the Federal/State Grants Special Revenue Fund. These will be funded by contributions from other funds and future revenues, respectively.

7. RISK MANAGEMENT

The City participates in the PLAN JPA, a joint powers authority established to provide liability insurance coverage, claims, risk management, and legal defense to its participating members. PLAN JPA provides \$5,000,000 per occurrence of general liability and automobile coverage, \$25,000,000 excess liability coverage per occurrence, \$5,000,000 of catastrophic liability coverage, and is responsible for paying the claims in excess of the City's \$100,000 self-insurance retention. PLAN JPA also provides for property coverage up to \$1 billion per occurrence subject to lower categorical sub-limits in excess of the City's self-insurance retention of \$5,000 or property and vehicle loss.

The retained earnings/net position of the Self-Insurance Fund, which is categorized as part of Governmental Activities, represent amounts set aside for possible additional losses after providing for actuarially determined liabilities for claims including claims adjustment expenses.

No claim settlement exceeded either this self-insured amount or the insurance coverage for any of the past three years. As of June 30, 2022, claims payable are as follows:

Claims payable June 30, 2020	\$4,936,000
Changes to estimated claims liability	1,329,576
Claims paid	(853,576)
Claims payable June 30, 2021	5,412,000
Changes to estimated claims liability	488,707
Claims paid	(872,707)
Claims payable June 30, 2022	\$5,028,000
Current Portion	\$1,545,000

8. PUBLIC EMPLOYEES' RETIREMENT SYSTEM

A. General Information about the Pension Plans and Summary of Balances by Plan

The City participates in the following Pension Plans (Plans) administered by the California Public Employees Retirement System (CalPERS):

<u>Agent Multiple-Employer Defined Benefit Pension Plans</u> (Miscellaneous Plan) for its Miscellaneous employees.

An agent multiple-employer plan is one in which the assets of the participating government employers are pooled for investment purposes but separate accounts are maintained for each individual employer.

Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Safety Plan) for its Safety employees.

A cost-sharing multiple-employer defined benefit pension plan is a plan in which the pension obligations to the employees of more than one employer are pooled and pension plan assets can be used to pay benefits of the employees of any employer that provides pensions through the plan.

B. Actuarial Assumptions and Discount Rate

<u>Actuarial Assumptions</u> – For the measurement period ended June 30, 2021, the total pension liabilities were determined by rolling forward the June 30, 2020 total pension liabilities. The June 30, 2021 total pension liabilities were based on the following actuarial methods and assumptions:

unds

(1) The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

<u>Discount Rate</u> - The discount rate used to measure the total pension liability for each Plan was 7.15%. The projection of cash flows used to determine the discount rate for the Plans assumed that contributions from all plan members in the Public Employees Retirement Fund (PERF) will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, each Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members for all plans in the PERF. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefits payments to determine the total pension liability for each Plan.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

B. Actuarial Assumptions and Discount Rate, Continued

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical and forecasted information for all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects the long-term expected real rate of return by asset class.

	Current Target	Real Return Years	Real Return Years
Asset Class(a)	Allocation	1 - 10(b)	11+(c)
Public Equity	50.00%	4.80%	5.98%
Fixed Income	28.00%	1.00%	2.62%
Inflation Assets		0.77%	1.81%
Private Equity	8.00%	6.30%	7.23%
Real Assets	13.00%	3.75%	4.93%
Liquidity	1.00%	-	-0.92%
Total	100%		

- (a) In the CalPERS Annual Comprehensive Financial Report, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.
- (b) An expected inflation of 2.0% is used this period.
- (c) An expected inflation of 2.92% is used this period.

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions and pension expense, information about the fiduciary net position of the plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

B. Actuarial Assumptions and Discount Rate, Continued

Below is a summary of the deferred outflows of resources, net pension liabilities and deferred inflows of resources, and pension expense by Plan:

			1	Net Pension				
			Liabilit	y/Proportionate				
	Defe	rred Outflow	Sha	are of the Net	De:	ferred Inflows		Pension
	of	Resources	Pen	Pension Liability of Resources		Pension Liability of Resources Expen		Expense
Miscellaneous Safety	\$	5,966,246 13,424,927	\$	33,618,509 34,593,086	\$	11,638,490 \$23,744,678	\$	2,320,146 7,403,865
	\$	19,391,173	\$	68,211,595	\$	35,383,168	\$	9,724,011

A summary of the changes in net pension liability by plan type as of June 30, 2021 and June 30, 2022 are as follows:

Net Pension Liability	Miscellaneous	Safety		Tot	tal - Both Plans
6/30/2021	\$ 48,947,544	\$	53,531,797	\$	102,479,341
6/30/2022	33,618,509		34,593,086		68,211,595
Change-Increase (Decrease)	\$ (15,329,035)	\$	(18,938,711)	\$	(34,267,746)

C. CalPERS Miscellaneous Plan

<u>Plan Descriptions</u> – All qualified permanent and probationary employees are eligible to participate in the City's Miscellaneous Plan, agent multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employers. Benefit provisions under the Plans are established by State statute and the City's resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

<u>Benefits Provided</u> – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

C. CalPERS Miscellaneous Plan, Continued

The Miscellaneous Plan's provisions and benefits in effect at June 30, 2022, are summarized as follows:

_	Miscellaneous			
	Prior to	On or after		
Hire Date	January 1, 2013	January 1, 2013		
Benefit formula	2.7% @ 55	2% @ 62		
Benefit vesting schedule	5 years service	5 years service		
Benefit payments	montly for life	monthly for life		
Retirement age	50 - 67	52 - 67		
Monthly benefit, as a % of eligible compensation	2.0% - 2.7%	1.0% - 2.5%		
Required employee contribution rates	8%	6.25%		
Required employer contribution rates	10.970%	10.970%		
Required UAL payment	\$3,783,031	\$0		

Beginning in fiscal year 2016, CalPERS collects employer contributions for the miscellaneous plan as a percentage of the payroll for the normal cost portion as noted in the rates above and as a dollar amount for contributions toward the unfunded liability. The dollar amounts are billed on a monthly basis or can be prepaid in full no later than July 31. The City's required contribution for the unfunded liability in the Miscellaneous Plan was \$3,783,031 in fiscal year 2022.

<u>Employees Covered</u> - At the measurement date June 30, 2021, the following employees were covered by the benefit terms of the Miscellaneous Plan:

	Miscellaneous
Inactive employees or beneficiaries currently receiving benefits	278
Inactive employees entitled to but not yet receiving benefits	186
Active employees	155
Total	619

<u>Contributions</u> - Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

C. CalPERS Miscellaneous Plan, Continued

<u>Net Pension Liability</u> - The City's net pension liability for the Miscellaneous Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of each of the Plans is measured as of June 30, 2021, using an annual actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

<u>Changes in Net Pension Liability</u> – The changes in Net Pension Liability for the Miscellaneous Plan are as follows:

	Increase,	-	
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability (Asset)
Balance at June 30, 2020 (Measurement Date)	\$152,189,169	\$103,241,625	\$48,947,544
Changes in the year:			
Service cost	2,603,128		2,603,128
Interest on the total pension liability	10,739,952		10,739,952
Changes of benefit terms			
Changes in assumptions			
Differences between actual and expected experience	613,120		613,120
Plan to plan resource movement			
Contribution - employer		5,012,295	(5,012,295)
Contribution - employee		1,051,962	(1,051,962)
Net investment income		23,324,110	(23,324,110)
Benefit payments, including refunds of employee contributions	(7,789,485)	(7,789,485)	-
Administrative expense		(103,132)	103,132
Other Miscellaneous Income/Expense			
Net changes	6,166,715	21,495,750	(15,329,035)
Balance at June 30, 2021 (Measurement Date)	\$158,355,884	\$124,737,375	\$33,618,509

<u>Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u> – The following presents the City's proportionate share of the net pension liability, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage point lower or one-percentage point higher than the current rate:

1% Decrease		6.15%
Net Pension Liability	\$	54,382,319
Current Discount Rate Net Pension Liability	\$	7.15% 33,618,509
1% Increase Net Pension Liability	¢	8.15% 16.458.641
Net I elision Liability	Φ	10,430,041

C. CalPERS Miscellaneous Plan, Continued

<u>Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions</u> - For the year ended June 30, 2022, the City recognized pension expense of \$2,320,146 for the Miscellaneous Plan. At June 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		erred Inflows f Resources
Pension contributions subsequent to measurement date	\$	5,366,996	\$ -
Differences between actual and expected experience		599,250	-
Changes in assumptions		-	-
Net difference between projected and actual earnings on			
plan investments		-	11,638,490
Total	\$	5,966,246	\$ 11,638,490

A total of \$5,366,996 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred inflows of resources related to pensions will be recognized as a reduction to pension expense (income) as follows:

\$ (2,496,632)
(2,550,297)
(2,789,460)
(3,202,851)
\$

D. CalPERS Safety Plan

The City's Safety Plan is part of the public agency cost-sharing multiple-employer defined benefit pension plan (PERF C), which is administered by CalPERS. PERF C consists of a miscellaneous pool and a safety pool (also referred to as "risk pools"), which are comprised of individual employer miscellaneous and safety rate plans, respectively. Individual employers may sponsor more than one miscellaneous and safety rate plan. The employer participates in one cost-sharing multiple-employer defined benefit pension plan regardless of the number of rate plans the employer sponsors. The City sponsors two rate plans (two police) within the safety risk pool.

D. CalPERS Safety Plan, Continued

<u>Plan Description</u> - All qualified permanent and probationary employees are eligible to participate in the City's Safety Employee Pension Plan, a cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plan are established by State statute and the City's resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

<u>Benefits Provided</u> - CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50, with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Safety Plan provisions and benefits in effect at June 30, 2022, are summarized as follows:

	Safety			
	Prior to	On or after		
Hire Date	January 1, 2013	January 1, 2013		
Benefit formula	3% @ 50	2.7% @ 57		
Benefit vesting schedule	5 service years	5 service years		
Benefit payments	monthly for life	monthly for life		
Retirement age	50 - 55	50 - 57		
Monthly benefit, as a % of eligible compensation	3.0%	2.0% - 2.7%		
Required employee contribution rates	9.0%	13.0%		
Required employer contribution rates	23.710%	13.130%		
Required UAL payment	\$3,841,324	\$35,346		

CalPERS collects employer contributions for the cost-sharing plan as a percentage of payroll for the normal cost portion as noted in the rates above and as a dollar amount for contributions toward the unfunded liability. The dollar amounts are billed on a monthly basis or can be prepaid in full no later than July 31. The City's required contribution for the unfunded liability for the Safety Plan was \$3,876,670 in fiscal year 2022.

D. CalPERS Safety Plan, Continued

<u>Contributions</u> - Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the measurement period ended June 30, 2021, contributions to the Safety Plan were \$5,482,002.

<u>Pension Liabilities</u>, <u>Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions</u> – For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Safety Plan and additions to/deductions from the Safety Plan's fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

As of June 30, 2022, the City reported net pension liability for its proportionate share of the net pension liability of the Safety Plan of \$34,593,086.

The City's net pension liability for the Safety Plan is measured as the proportionate share the total net pension liability of the CalPERS Plan. The net pension liability is measured as of June 30, 2021, and the total pension liability for the CalPERS Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The City's proportionate share of the net pension liability as of June 30, 2020 and 2021 was as follows:

	Safety Plan
Proportion - June 30, 2020 Proportion - June 30, 2021	0.49200% 0.63963%
Change - Increase (Decrease)	0.14763%

C- (-1-- D1---

D. CalPERS Safety Plan, Continued

For the year ended June 30, 2022, the City recognized pension expense of \$7,403,865 for the Safety Plan. On June 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred		
	(Outflows	Defe	erred Inflows
	of	Resources	of	Resources
Pension contributions subsequent to measurement date	\$	6,153,419	\$	-
Differences between actual and expected experience		5,910,198		
Net differences between projected and actual earnings				
on plan investments		-		20,589,536
Differences between actual contributions and				
proportional contributions		-		3,155,142
Adjustment due to differences in proportion		1,361,310		
Total	\$	13,424,927	\$	23,744,678

A total of \$6,153,419 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a component of pension expense in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense (income) as follows:

Year Ended June 30,	_	
2023	\$	(2,874,260)
2024		(3,453,068)
2025		(4,479,888)
2026		(5,665,954)

<u>Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u> – The following presents the City's proportionate share of the net pension liability, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage point lower or one-percentage point higher than the current rate:

	Safety
1% Decrease Net Pension Liability	\$ 6.15% 60,170,683
Current Discount Rate Net Pension Liability	\$ 7.15% 34,593,086
1% Increase Net Pension Liability	\$ 8.15% 13,584,249

D. CalPERS Safety Plan, Continued

<u>Pension Plan Fiduciary Net Position</u> – Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

9. DEFINED CONTRIBUTION POST-EMPLOYMENT HEALTHCARE PLAN

<u>Plan Description</u> - The City of San Bruno contracts with the Teamsters Local #856 Health and Welfare Trust Fund to provide health benefits to both active and retired employees as a defined contribution plan. The City

provides no direct financial contribution towards retiree health benefits; however, due to the fact that retirees and active employees are insured in the same pool it indirectly subsidizes their premiums through payments for current employees. At this time, the City has not established a trust for the purpose of holding assets accumulated for plan benefits.

<u>Eligibility</u>: - Employees (and their dependents) are eligible for retiree health benefits if they retire from the City on or after age 55 with at least 10 years of service (with 12 continuous months prior to date of retirement) and are eligible for a CalPERS pension. Membership of the plan consisted of the following at June 30, 2022:

Current Retirees	116
Active employees	205
Total	321
Total	521

<u>City's Funding Policy</u> - The Teamsters Local #856 Health and Welfare Trust Fund determine the contribution

requirements of the City. The contribution required to be made under City Council and labor agreement requirements is based on a pay-as-you-go basis (i.e., as medical insurance premiums become due). For fiscal year 2021-22 the City's actual contribution to the Teamsters Local #856 Health and Welfare Fund was \$6,540,197, which includes the calculated benefit cost for the City's retirees and the cost of implicit subsidies where applicable.

<u>Annual OPEB Cost and Net OPEB Obligation</u> - The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

City of San Bruno Notes to Basic Financial Statements For the Year Ended June 30, 2022

10. CONTINGENCIES

The City participates in a number of Federal, State and County programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grantor program regulations, the City may be required to reimburse the grantor government. As of June 30, 2022, some amounts of grant expenditures have not been audited, but the City believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any individual governmental funds or the overall financial condition of the City.

11. LITIGATION

The City is a defendant in a number of lawsuits which have arisen in the normal course of business. While substantial damages are alleged in some of these actions, their outcome cannot be predicted with certainty. In the opinion of the City Attorney, these actions, when finally adjudicated, do not appear to have a materially adverse effect on the financial condition of the City.

12. GOING CONCERN

At June 30, 2022, the CityNet Enterprise Fund had \$0 in cash and an accumulated interfund debt to the General Fund of \$15,316,895. Additionally, the fund continues to have operating losses of each year, with a loss of \$859,995 in the fiscal year 2021-22 and a loss of \$904,625 in the prior year. Management continues to take measures to improve revenue collections as well as subscription margins. Additional progress has been made towards continued reduction of operating losses and improvement of subscription margins going forward, to be supported by the launch of asset light, state of the art, internet delivered TV by the end of fiscal year 2023. To accelerate repayment of the interfund loan and implement a repayment timeline, an improvement is necessary to the Enterprise's aging internet and TV delivery technology to make the Enterprise fully competitive, improve its position as a going concern, attract more customers and commence the payback of the loan from the General Fund. This improvement would be accomplished by the rollout of fiber technology. Initial funding for the rollout has been approved by the Council pending presentation of a detailed rollout plan.

At June 30, 2022, the Stormwater Enterprise Fund has losses in operations of \$590,107 as compared with \$715,807 in the prior year. The fund requires transfers in from the General Fund to maintain a positive fund balance. Management has evaluated the fund and has come to the conclusion that the charges for services are not adequate for the costs of those services.

City of San Bruno Notes to Basic Financial Statements For the Year Ended June 30, 2022

13. PRIOR PERIOD ADJUSTMENT

The City recorded a prior period adjustment for a bequest that was received in the year 2020 and held in a trust for the benefit of the City.

^{*} Fiscal year 2015 was the first year of implementation, additional years will be added as the information becomes available.

Notes to the Schedule:

<u>Benefit Changes:</u> The figures above do not include any liability impact that may have resulted from plan changes which occurred after June 30. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

<u>Changes in Assumptions:</u> In 2018, demographic assumptions and inflation rate were changed in accordance with the CalPERS Experience Study and Review of Assumptions December 2017. There were no changes in the discount rate. In 2017, the accounting discount rate reduced from 7.65% to 7.15%. In 2016, 2018, 2019, and 2020, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5% (net of administrative expense) to 7.65% (without a reduction for pension plan administrative expense). In 2014, amounts were based on the 7.5% discount rate.

Contributions as a percentage of covered payroll	20.25%	22.43%	25.96%
Notes to Schedule:			
Valuation date	6/30/2012	6/30/2013	6/30/2014

The actuarial methods and assumptions used to set the actuarially determined contributions for Fiscal Year 2021-22 were derived from the June 30, 2019 funding valuation report.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age Normal Cost Method Level percentage of payroll, closed Amortization method Remaining amortization period 15 years as of valuation date Asset valuation method 5-year smoothed market Inflation 2.75% for 2015 to 2019, 2.625% for 2020 and 2.50% for 2021 to 2022 Salary increases Varies by entry age and service 7.50% for 2015 to 2018, 7.375% for 2019, 7.25% for 2020, and 7.00% for 2021 Investment rate of return and 2022, net of pension plan investment expense, including inflation. The probabilities of Retirement are based on the CalPERS Experience Study. Retirement age The probabilities of mortality are based on the CalPERS Experience Study. Pre-Mortality

retirement and Post-retirement mortality rate include 20 years of projected mortality improvement using Scale AA published by the Society of Actuaries

for 2015 to 2018. For 2019 to 2022, pre-retirement age.

^{*} Fiscal year 2015 was the first year of implementation, additional years will be presented as the information becomes available.

NONMAJOR GOVERNMENTAL FUNDS

Nonmajor Special Revenue Funds:

In Lieu - Accounts for funds received to substitute for standard fees utilized for particular purposes.

Agency on Aging - Accounts for funds for senior services.

Federal/State Grants - Accounts for activities for the City's grants.

Gas Tax - Accounts for funds received and expended for street maintenance purposes as defined in sections 2103, 2106, 2107.5 of the Streets and Highway Code.

Police Asset Seizure - Accounts for state augmentation funds to be used for safety programs.

Police - Accounts for Police revenues to be used on special law enforcement programs.

SB322 Recycling/Litter Clean-up – Accounts for SB322 funds to be used on recycling and litter clean-up programs.

Restricted Revenues - Accounts for donations and fees collected for specific purposes.

Bequests - Accounts for funds bequested to the City.

Streets - Accounts for funds dedicated to street improvement and mitigation.

City of San Bruno as Successor Housing Agency - Accounts for housing assets and functions previously performed by the former Redevelopment Agency.

Impact Fees - Accounts for funds from new development to pay for public facilities and infrastructure needed to accommodate growth in the City.

Measure A Transportation Tax - Accounts for funds received to be used for local transportation purposes. The revenues consist primarily of revenues received from Measure A sales tax passed to the City by San Mateo County.

Disaster Recovery - Accounts for funds from Pacific Gas and Electric Company (PG&E) Trust to rebuild the Crestmoor/Glenview neighborhood.

Measure W Transportation Tax - Accounts for funds received to be used for local transportation purposes. The revenues consist primarily of revenues received from Measure W sales tax passed to the City by San Mateo County.

Capital Project Fund:

Street Improvement Capital Project Fund - The Street Improvement Capital Project Fund accounts for funds expended for transportation infrastructure such as street rehabilitation, streetlights, traffic signals and street medians.

Debt Service Fund:

General - Accounts for funds related to the 2011 and 2017 fire apparatus lease purchase, 2013 Pension Obligation Bond, and 2018 router lease purchase principal and interest payments.

CITY OF SAN BRUNO JUNE 30, 2023

STATISTICAL SECTION

This part of the City's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health. In contrast to the financial section, the statistical section information is not subject to independent audit.

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and wellbeing have changed over time:

- 1. Net Position by Component
- 2. Changes in Net Position
- 3. Fund Balances of Governmental Funds
- 4. Changes in Fund Balance of Governmental Funds

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax:

- 1. Assessed Value and Actual Value of Taxable Property
- 2. Direct and Overlapping Property Tax Rates
- 3. Principal Property Taxpayers
- 4. Schedule of Top 40 Business License Taxpayers
- 5. Property Tax Levies and Collections

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future:

- 1. Ratio of Outstanding Debt by Type
- 2. Computation of Direct and Overlapping Debt
- 3. Computation of Legal Bonded Debt Margin
- 4. Bonded Debt Pledged Revenue Coverage:
 - a. Wastewater Certificates of Participation
 - b. 2013 Wastewater Revenue Refunding Bonds
 - c. 2017 Wastewater Revenue Refunding Bonds
 - d. 2017 Water Revenue Refunding Bonds

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place:

- 1. Demographic and Economic Statistics
- 2. Principal Employers

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs:

- 1. Full-Time Equivalent City Government Employees by Function/Program
- 2. Operating Indicators by Function/Program
- 3. Capital Asset Statistics by Function/Program

Sources

Unless otherwise noted, the information in these schedules is derived from the Annual Comprehensive Financial Reports for the relevant year.

⁽¹⁾ The percentage of overlapping debt applicable to the city is estimated using taxable assessed property value. Applicable percentages were estimated by determining the portion of the overlapping district's assessed value that is within the boundaries of the city divided by the district's total taxable assessed value.

⁽²⁾ Excludes tax and revenue anticipation notes, enterprise revenue, mortgage revenue, and tax allocation bonds and non-bonded capital lease obligations.

City of San Bruno, California Legal Debt Margin Information

(in thousands of dollars) Last Ten Fiscal Years

Legal Debt Margin Calculation for Fiscal Year 2022 $^{\rm (1)}$

	\$ 9,305,222,506	348,945,844	1	\$ 348,945,844
)	Gross Assessed Valuation	Bonded Debt Limit (3.75% of Assessed Value)	Less Amount of Debt Applicable to Limit	Legal Bonded Debt Margin

Debt limit Total net debt applicable to limit	\$ 798,292	\$ 798,292 \$ 842,892 \$ 906,586 \$ 967,607	\$ 906,586	\$ 967,607	\$260,349	\$ 8	275,518	\$ 295,778	275,518 \$ 295,778 \$ 315,178	\$ 336,709 \$ 348,946	\$ 348,946
Legal Gebt margin Total net debt applicable to the limit as a percentage of debt limit	0.00%	0.00% % 042,097 & 9.06,200 % 0.00 % 00.	0.00%	0.00%	0.00%	Ð	0.00%	%00.0	11	0.00%	%00.0

(1) California Government Code, Section 43605 sets the debt limit at 15% of gross assessed valuation. The Code section was enacted when assessed valuations v This has since changed to 100% of full market value. Thus, the limit shown is 3.75% (one-fourth the limit of 15%). FY2016-17 and onwards, the debt limit is at 3.75%.
