Member of the Public Rick Fern – spoke about the treatment center well for the

stormwater and field size.

Member of the Public David Nigel – spoke about excitement of project.

Community & Economic Development Director Peter Gilli, Consultant Fletcher, Assistant City Manager Darcy Smith and Interim City Manager McIntyre answered questions.

No action taken, item will be brought back to the City Council at a future meeting.

7. **COUNCIL COMMITTEE REPORT OUT**

Mayor R. Medina

Airport Land Use: Attended meeting all had to do with San Carlos Airport developments around the airport, all passed but was concern over child care participating in those developments and the safety element of the planes. The Council of Cities had an event at the San Carlos Airport. Was ironic to have a meeting on that subject and then get a tour of the hangar in the facility which was impressive.

SamTrans has an opening for a public member within San Mateo County. Gets appointed by the board of directors and serves to review. Meet in-person in San Carlos at 2:00 p.m. on Wednesdays. Is a great opportunity. Can go on the SamTrans website.

Caltrain JPB: Is chair on the TOPS Ad Hoc Committee. Brought forward to award a contract for a preliminary engineering service for the South Linden and Scott Street Separation project. The ad hoc committee recommended and approved it.

Vice Mayor Hamilton

Attended first Peninsula Clean Energy Board of Directors meeting on April 27th and unanimously approved many administrative items. Will report on most interesting items. Approved a \$142 million contract for 180 megawatt hours of electric storage capacity at a storage facility near Barstow. This storage capacity is a big step toward PCE renewable energy at night. A lot of that comes from solar so having the storage capacity is going to get them to that goal.

Also approved amended language in the PCE's board policies to address diversity equity accessible and inclusion. Approved language for several existing policies and gave staff direction to meet with labor and environmental justice groups to gather input on extending similar language to the rest of the policies and bring those back PCE executive committees and the full board within three months. Lastly, received a report on the CPUC's sunseting of NFS to install solar by allowing them to sell back excess generated energy back to the grid at rates to help them recoup the installation costs of solar. The NEM 3.0 program rolled out in April reduces these incentives to allow the incentive program to remain sustainable and under NEM 2.0 the average homeowner would recoup their solar costs in 4-5 years. Under the new rules this average extends to 8-9 years.

8. **COMMENTS FROM COUNCIL MEMBERS**

Mayor R. Medina

Took a group photo with some electeds and commissions in Belmont for Mental Health

Awareness.

Hyundai had their grand opening at the mall. They are meeting and exceeding expectations.

On Monday, reached out to Mayor G from the City of Redwood City on the news of the five that was shot in Redwood City and offered our support and thoughts.

9. **ADJOURNMENT**

This meeting adjourned at 8:38 p.m. The next Regular City Council Meeting will be on Tuesday, May 23, 2023 at 7:00 p.m.

These City Council meeting minutes were prepared by Lupita Huerta, City Clerk, and presented to the City Council for approval at the regular meeting of May 23, 2023.
