Because of limited testing capacity, the number of cases detected through testing represents only a small portion of the total number of likely cases in the County. COVID-19 data are reported as timely, accurately, and completely as we have available. Data are updated as we receive information that is more complete and will change over time as we learn more. Cases are lab-confirmed COVID-19 cases reported to San Mateo County Public Health by providers, commercial laboratories, and academic laboratories, including reporting results through the California Reportable Disease Information Exchange. A lab-confirmed case is defined as detection of SARS-CoV-2 RNA in a clinical specimen using a molecular amplification detection test. Cases are counted by episode date; episode date is defined as the **earliest** of: case symptom onset date, sample collection date, date of laboratory result, or date of death. Deaths reported in this dashboard include only San Mateo County residents; death data last updated January 14, 2022.

COVID 19 Vaccinations of San Mateo County Residents as of 1/18/2022

 **679,558**

Individuals with at least 1 dose

COVID 19 Vaccinations

%5+ Vaccinated

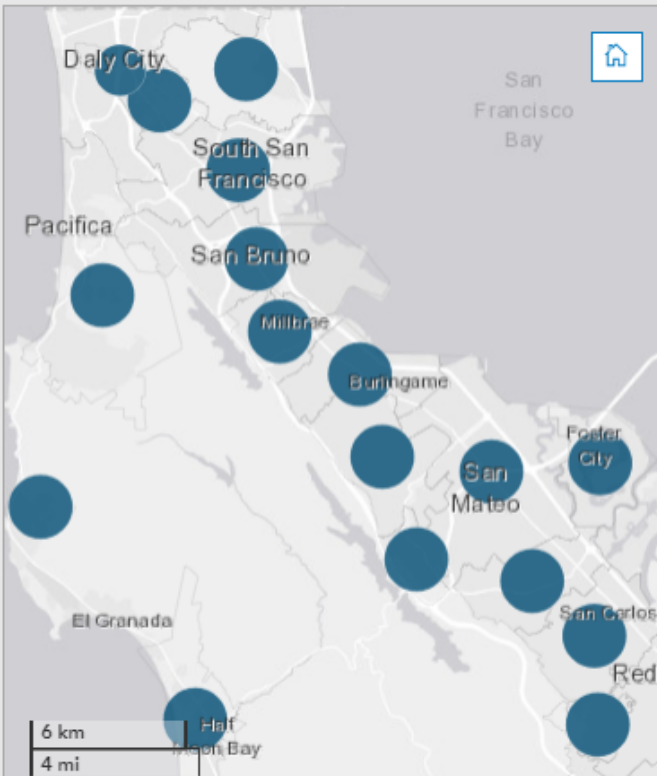

Top 20 Vaccinated Cities (%5+ Vaccinated)

Vaccinations by city are calculated by geocoding and aggregating self-reported addresses by city or town. In instances where geocoding is not possible (due to missing street addresses), counts of self-reported city of residence are aggregated with counts of geocoded addresses. Vaccinations with addresses that are not successfully geocoded or where city of residence is missing cannot be assigned to a corresponding city. For geographies with smaller populations, such as Pescadero, there is some likely inaccuracy in calculated vaccination rates due to geocoding errors and instability of vaccination counts and population counts. Please interpret this map with caution.

Note: Data for El Granada, Loma Mar, Moss Beach, and Broadmoor is currently on hold. New methodology is pending to improve reporting for the said communities.

Individuals Who Completed
Vaccination Series

624,806

% Completed Vaccination Series

Total Vaccine Doses Administered

1,624,683

Vaccinations administered as part of federal health care organizations or programs such as the Department of Veterans Affairs (VA) report to federal immunization systems, may not report into CAIR2, and may not be included in vaccination numbers on the dashboard.

COVID 19 Vaccinations of San Mateo County Residents

Vaccinations for San Mateo County residents are reported to SMC Public Health via the California Immunization Registry (CAIR2). COVID-19 vaccine administration data are reported as timely, accurately, and completely as data become available. Previous data will change as new and updated data are received.

Vaccine Doses Administered by Date

Note: Vaccine Doses Administered by Date includes any doses administered to residents.

Vaccine Series Completed and Additional/Booster Doses by Date

Note: Vaccination Series Completed represents those who have received the second dose of a two dose vaccine (Pfizer and Moderna) and those who have received one dose of a single dose vaccine (Janssen). Additional/Booster Doses include additional doses for immunocompromised individuals and booster doses. Data for boosters and vaccination of 5-11 year olds are preliminary and subject to revision.

Criteria for Lifting County Health Officer Indoor Mask Mandate

Data up to and including January 9, 2022 as of 5pm

All three criteria must be met to lift the indoor masking requirement in public spaces

Community Transmission - Does Not Meet
The jurisdiction reaches the moderate (yellow) COVID-19 transmission tier, as defined by the Centers for Disease Control & Prevention (CDC), and remains there for at least three weeks

Severity of Disease - Does Not Meet
COVID-19 hospitalizations in the jurisdiction are low and stable, in the judgment of the health officer.

See [Hospital Data Dashboard](#)

Vaccinations - Met

80% of the jurisdiction's total population is fully vaccinated with two doses of Pfizer or Moderna or one dose of Johnson & Johnson (booster doses not considered) OR Eight weeks have passed since a COVID-19 vaccine has been authorized for emergency use by federal and state authorities for 5- to 11-year-olds.

Please visit the [CDC website](#) to view the most recent COVID-19 case rate data for San Mateo County

First Day in Moderate Tier:

TBD

Weeks Meeting Moderate Tier:

0 weeks

Weeks Left to Meet Goal:

3 weeks

Note: Level of community transmission is determined using the historical changes dataset provided by the CDC.

Fully Vaccinated Residents

● Fully Vaccinated ● Not Fully Vaccinated

Fully vaccinated persons are those who are ≥14 days post completion of the primary series of a COVID-19 vaccine.

Fully Vaccinated Residents:

79.6%

8 weeks post EUA Authorization:

12/29/2021

Date of EUA Authorization:

11/3/2021

Weeks Left to Meet Goal:

0 weeks

Note: Starting November 8, 2021, the method to calculate the number of fully vaccinated residents was changed to more closely align with the state's reporting methodology. This change adds fully vaccinated residents who were previously not included in the total.

**January 9, 2022 data is the most recent available as of the time the information was pulled on January 19, 2022*

San Mateo County COVID-19 Hospital Data

Data up to and including January 18, 2022 as of 5:00pm

These data are a snapshot of the capacity of hospitals reporting data to San Mateo County Health. It is not uncommon for these data to vary from day to day due to normal fluctuations in the number of patients cared for in the hospitals. If a hospital does not report a daily census, data from the previous day are used for the non-reporting hospital. Data reported may also include patients transferred from other locations and are referred to as out of County transfers. Out of County transfers may include both COVID-19 and non-COVID-19 cases. As of 12/27/2020, ventilators available and 'staffed and available' bed data source is HAvBED (Hospital Available Beds for Emergencies and Disasters) hospital poll via ReddiNet.

Currently Hospitalized COVID-19 Patients	Confirmed	Resource	In Use	Available	Total	Out of County Patients (Confirmed)	Percent Out of County Patients (Confirmed)
145	132	Acute Care Beds	384	12	396	0	0%
	Suspect	Acute Care Surge Beds	0	134	134		
	13	ICU Beds	66	2	68		
		ICU Surge Beds	0	67	67		
		Ventilators	20	107	127		

Source: ReddiNet daily poll of San Mateo County hospitals by SMC Health

CONFIRMED CASES ONLY

Notes: The 3-day average is calculated using the previous three days. Out of County means the patient was transferred from an out of county facility.

Hospitalized COVID-19 Patients (Confirmed cases only)

Date	Out of County	All Confirmed COVID-19	Out of County %
January 12	0	124	0%
January 13	0	138	0%
January 14	0	127	0%
January 15	0	112	0%
January 16	0	114	0%
January 17	0	123	0%
January 18	0	132	0%
